

30 down-the-hole drill rig30 machine

What is a DM30 drill rig?

The DM30 is a crawler mounted,hydraulic tophead drive,multi-pass rotary drilling rigspecifically designed for production blasthole drilling to depths of 90 ft (27.4 m) with a 30 ft (9.1 m) drill pipe change. An optional 4-rod carousel supports drilling to depths of 150 ft (45.7 m). Nominal diameter is 5 in to 6? in (127 to 171 mm).

How deep can a DM30 rig Drill a hole?

A crawler-mounted,hydraulic tophead-drive rig,the DM30 II can achieve a clean hole depth of 28 ft.for single-pass applications and up to 148 ft. for multi-pass applications with a starter rod under the rotary head. It also features a 30-ft. drill pipe change and a four-rod carousel.

How deep can a DM30 rotary drill be used?

single-pass rotary and DTH drilling applications. It can achieve a clean hole depth of 36 ft(11 m) Designed to handle 4 to 6-1/4 in drill pipe,the DM30 II SP has a pulldown of up to 30,000 lbf (133.4 kN) and delivers a hole diameter of 5 to 7-7/8 in (140-200 mm).

What is lb 30 rotary drilling rig?

The LB 30 is the successor of the proven rotary drilling rig LB 24-270. Its torque is 297 kNm - a 10 % increase in comparison to its predecessor. Drilling with Kelly equipment,double rotary head and continuous flight auger are common methods. The machine can be transported with lowered leader syste...

What is a DM30 II SP rig?

Built off the same reliable platform as the Epiroc DM45 and DML blasthole drill rigs,the DM30 II SP is suitable for a variety of single-pass rotary and down-the-hole (DTH) drilling applications. It can achieve a clean hole depth of 11 meters (36 feet) for single-pass applications.

What makes the DM30 II a good drill?

High quality at an excellent valuesets the DM30 II apart from other drills in its class. A small footprint makes it easy to maneuver on tight benches and simple to transport over the road between pits. The DM30 II is a crawler-mounted,hydraulic tophead-drive rig that's suitable for a variety of multi-pass rotary and DTH drilling applications.

The Epiroc IDM30 drill is a crawler mounted, blasthole drill rig for down the hole and rotary drilling popular in the most aggressive coal, limestone and iron ore mines. Features and benefits: ...

Request A Quote Features of the Down the Hole Drilling Machine It has a compact structure, simple operation, fast chisel speed, high and efficiency. The DTH boring machine is a good ...

30 down-the-hole drill rig30 machine

SD150 DOWN THE HOLE DRILLING RIG The SD150 is a high performance die-sel powered, hydraulic crawler mounted drill rig designed for DTH drilling in ...

Down-the-hole drilling rigs | Choosing the right drilling rig You could need a drilling rig for a multitude of applications, for example to drill a well to access a ...

YG specialize in the production of DTH drilling machine. Ideal choice for blasting holes in limestone, bluestone, granite, soil, etc.

Down-the-hole drilling rigs | Choosing the right drilling rig You could need a drilling rig for a multitude of applications, for example to drill a well to access a natural resource (water, oil, ...

Basic machine and leader with all hydraulic hoses connected can be transported in one piece. The minimized assembly work allows for quick and easy transportation of the machine ...

A down-the-hole drill, usually called DTH by most professionals, is basically a jackhammer screwed on the bottom of a drill string. The fast hammer action breaks hard rock into small ...

Request A Quote Features of the Down the Hole Drilling Machine It has a compact structure, simple operation, fast chisel speed, high and efficiency. ...

The DM30 is a crawler mounted, hydraulic tophead drive, multi-pass rotary drilling rig specifically designed for production blasthole drilling to depths of 90 ft (27.4 ...

In down-the-hole drilling a drill rod is fitted with a hammer at its lower end. The hammer, which is mounted on the drill bit, is activated through the addition of ...

Wheel traction installation design: saves 50% of transportation costs compared to trucks; Installed with tires, it can be towed by motor vehicles for easy movement between different sites and ...

Leopard(TM) DI550 diesel-powered, down-the-hole (DTH) drill has enhanced mobility, a smaller footprint and can serve multiple sites. Designed for DTH ...

The small down the hole drilling rig offers hybrid motor-air performance, designed for efficient rock drilling in tight or steep areas. Click!

Down the hole drilling rig, particularly effective in hard rock drilling, ideal for mining, quarrying, water wells, geotechnical projects.

in single-pass applications Powerful performance Designed to handle 4 to 6-1/4 in drill pipe, the DM30 II SP has a pulldown of up to 30,000 lbf (133.4 kN) and ...

30 down-the-hole drill rig30 machine

YG professional DTH down-the-hole drilling machine manufacturers. Low cost, fast drilling, Easy to move & operate. Contact us now.

Down-the-hole (DTH) drilling is a method used to drill boreholes in hard rock formations for various applications such as mining, construction, and quarrying. This technique involves a ...

SD150 DOWN THE HOLE DRILLING RIG The SD150 is a high performance die-sel powered, hydraulic crawler mounted drill rig designed for DTH drilling in the mining, quarry and ...

35m depth kt25 Efficient dust collection system dth Blasting hole integrated mine drill rigs for open Use mining KT25 open-pit down-the-hole drilling rig is a new type of drilling equipment ...

Mining, Quarrying & Construction The REL C650 D Down-the-Hole Blast Hole drill comes from the family of the C650 D Series. Designed to drill clean holes of 6 ...

A crawler-mounted, hydraulic tophead-drive rig, the DM30 II can achieve a clean hole depth of 28 ft. for single-pass applications and up to 148 ...

D440+ working pressure up to 20 bars with 4 m drill pipe and choices of 2 dia. sizes to choose from, good for foot hole drilling and drilling speed much faster than the competitive products.

RC195Y Photovoltaic Piling Machine is a highly specialized equipment used for solar projects that require piling. This machine has several advantages that make it stand out from its ...

Designed to handle 4-1/2 to 5-1/2 in drill pipe, the DM30 II has a pulldown of up to 30,000 lbf (133.4 kN) and delivers a hole diameter of 5-1/2 to 7-7/8 in (140-200 mm). Choose a low- or ...

Built off the same reliable platform as the Epiroc DM45 and DML blasthole drill rigs, the DM30 II SP is suitable for a variety of single-pass rotary ...

Search for 2023 best down-the-hole drilling rig, DTH drilling rig for sale in YG Machinery manufacturer with factory price. Click here now!

The down-the-hole drilling machine is suitable for large-diameter blast hole rock drilling operations in small and medium-sized mines, road construction, water ...

KT11 down the hole drilling machine drills ?115-152mm vertical, inclined and horizontal hole for open-pit mines and stonework project.

Leopard(TM) DI560 is a highly mobile, compact, diesel-powered down-the-hole (DTH) drill designed for

30 down-the-hole drill rig30 machine

DTH blasthole drilling in mining, quarry and ...
