Is drilling in ANWR a good idea?

Drilling in ANWR fails to lower energy prices today and sets no long term energy strategy for tomorrow. But for the children of the poorest people we're stripping the curriculum, removing the arts and music, and drilling the children into useful labor. We're not valuing a child for the time in which she actually is a child.

Where are rigs sourced?

Rigs are sourced through an extensive network of global partners cultivated over the course of decades. From new construction and upgrades to rig repairs and complete crown-to-ground refurbishment, drilling contractors across the globe trust HENDERSON to deliver their drilling rigs.

What kind of rigs are in inventory?

Inventory includes AC and SCR gas and oil drilling rigs. Horsepower from 250hp to 500hp, 1000hp, 1500hp, 2000hp to 3000hp land rigs. Jon Snodgrass Oil and Gas Properties, Inc., in business since 1979, specializes in the A&D business sourcing and marketing oil and gas properties to independent producers throughout the United States.

Where are drilling rigs built?

Our seasoned team of engineers and project managers build full-scale, fully-operational drilling rigs at our spacious 80,000 square foot Headquarters on Bender Road in Houston, Texas. The location boasts 32 acres with room for 13 rig pads. No matter the state or condition of your rig, we can get it reassembled and back into operation for you.
