

## Active drilling rigs factories

What does active rig count mean?

When drilling rigs are active they consume products and services produced by the oil service industry. The active rig count acts as a leading indicator of demand for products used in drilling, completing, producing and processing hydrocarbons.

What are offshore oil rig manufacturers?

Offshore Oil Rig Manufacturers specialise in offshore drilling and rig construction. These rigs drill into the ocean floor to extract oil or gas and have facilities for refining and storing the products until they can be transported to shore. The rigs are constructed in port cities and then towed to their destination.

How many oil rigs are there in the US?

The June 20th Baker Hughes rig count report shows a drop in the active rig count. Baker Hughes reports 554 active drilling rigs in the US. In April, the total active rig count was 587. One year ago, the total active rig count was 588. The oil rig count is currently 438 rigs, compared to 483 in April and 485 one year ago.

Who provides the working rig location information?

The working rig location information is provided in part by Enverus. The Investor Relations website contains information about Baker Hughes Rig Count's business for stockholders, potential investors, and financial analysts.

How much money does offshore oil rig manufacturing make?

The revenue of offshore oil rig manufacturing is estimated to grow in the next few years. In 2024, the offshore drilling rigs market was valued at \$78.27 billion, and by 2034, it is expected to touch \$166.09 billion.

How many drilling rigs are active in July?

Patterson-UTI reports 103 active rigs on average during the month under review. July started off strong, with 108 drilling rigs active in the first week. However, active rigs fell by 9% in the last week of the month, given that only 98 drilling rigs were reported to be in operation.
