

Air Leg Rock Drill Video Collection

What is air leg Rock Drill?

Air leg rock drill is a tool work in quarrying, construction and mining, which uses compressed air to drive rock drilling tools for rock drilling operations. This type of rock drill machine usually consists of a compressed air source, the rock drill body and the drilling bit.

What is air-leg rock drilling?

Air-leg rock drilling is a high efficiency rock drilling machine. It's widely used in mining and roadway drive of drilling operation.

How do you drill a deep hole in a rock drill?

When drilling deep holes, must use different lengths drill rods of different lengths, and use short drill rods at the beginning. The air leg rock drill consists of two main parts, a jack hammer head and an air leg. The jack hammer head consists of a silencer, a motor, a water chamber, a motor control valve, and an air leg control valve.

What is a rock drill machine?

This type of rock drill machine usually consists of a compressed air source, the rock drill body and the drilling bit. During operation, compressed air is transported into the main body of the rock drill through pipelines.

How to fix a rock drill?

When fixing the rock drill, the pneumatic drill driver and drill operator should coordinate with each other and work closely together. After finishing the drilling, need to close the water valve first and run the pneumatic drill without load to blow away the remaining water droplets inside and prevent the parts from rusting.

What are the advantages of YT-28 air-leg Rock Drill?

Drill of energy-saving, high efficient, sturdy and durable, easy maintenance, high reliability. Accessories of strong universality. Accessories of strong universality, when replace the product, users will not lose profit. YT-28 Air-leg rock drill is suitable for rock drilling operations in large mines, medium mines and tunnels.

Air Leg and Small Hole drilling tools are essential equipment used in mining, construction, geotechnical engineering, and tunneling. These tools are ...

The YT29A rock drill is the most rugged, powerful and highly efficient rock drill in the range. It provides improved productivity and drill steel economy and can ...

The air-leg rock drill is an efficient drilling device powered by compressed air and is widely used in mining, tunneling, construction, water conservancy projects ...

Introduction to yt24 air leg rock drill machine 1. YT24 is suitable for drilling horizontal or tilted blasthole in

Air Leg Rock Drill Video Collection

solid hard rocks as well as vertical bolt holes ...

It is the premier choice for roadway excavation and various rock drilling tasks in mines, railways, and highways. Engineered for power and reliability, the YT29A excels in drilling horizontal and ...

S215 Air Leg mounted Pneumatic Rock DrillThe S215 Air Leg Rock Drill is ideal for blast hole drilling in narrow vein stoping operations, making it the industry ...

AIR LEGS Air Legs Rockdrill maintenance that extend the life of your rock drilling equipment Key features of Double Telescopic Airlegs include: Lightweight Construction Independent Controls ...

The air leg drill is a powerful pneumatic tool designed for efficient rock drilling and mining operations. This versatile equipment combines compressed air power with precision ...

MJ250 Pusher leg Mounted Rock Drill Mindrill continues to lead the industry in the creation of premium rock drills designed to meet the most challenging ...

The YT27 rock drill is a new high-efficiency air leg rock drill, primarily used for rock drilling in tunnel excavation in mining operations. It is also widely used as a drilling tool in railway, water ...

The YT29A air leg rock drill is a heavy-duty air leg rock drill, known for its high efficiency and low energy consumption. It is suitable for drilling horizontal and inclined holes in medium-hard and ...

Operation Steps Place the air leg in a stable position and adjust the angle of the rock drill. Turn on the air and water supply, start the rock drill, and begin drilling. Adjust the height and angle of ...

Pusher Leg / Air Leg This Pusher Leg is used along with a Wet Rock Drill Machine in drifting and tunneling operations for inclined drilling and it provides complete freedom of movement in any ...

The air leg rock drill consists of two main parts, a jack hammer head and an air leg. The jack hammer head consists of a silencer, a motor, a water chamber, a motor control ...

Matters needing attention before using pneumatic air leg rock drill 1, Check the integrity and rotation of all parts (including rock drill, bracket, or rock drill cart) before drilling, fill with ...

The Rukton Minerals YT28 Air Leg Rock Drill is the most modern drilling machine which uses a modern design techniques, compared with the same type of product, with high efficiency, low ...

Real shooting of real drilling operation of YT27 pneumatic air leg rock drill #rockdrill #SHENLI. ?Shenli Mining Machinery Manufacturers Sales Manufacturers?SEHNLI How to use the YT27...

Air Leg Rock Drill Video Collection

Air leg rock drill, Model S250 S82 YT29A YT28 YT27, mining rock drilling, jack leg rock drill, air leg drill, airleg, jack leg drill, pneumatic air leg rock ...

The YT27 air-legged rock drill is a highly efficient lightweight rock drill suitable for downward or inclined drilling in medium-hard or hard (f=8 - 18) rock with a ...

6 days ago; Introduction of Drilling Rock Drill Safe Operation Of Assured Products Handheld YT Series Air Leg Pneumatic Rock Drill. Pictures of Drilling Rock Drill Safe Operation Of Assured ...

Underground Rockdrill WA provides you with new and used Rock Drills and Air Legs, and a range of pneumatic hand held mining equipment. Mining companies and private contractors are ...

The YT28 rock drill is a highly versatile air leg rock drill, primarily used for rock drilling in tunnel projects and mine tunnel excavation. It is compatible with the FY200C oiler and the FT160BC ...

The DT Series Airlegs are Australian designed pusher legs for use in the mining and construction industries. They are proudly Australian made from high quality alloys and have been the ...

The Air-Legged Rock Drills offered by Xianghe Kaituo Mining Machinery Co., Ltd. are at the forefront of advanced heavy-duty rock drilling technology. These meticulously designed drills ...

Back to Home Our Product YT29A Air Leg Rock Drill (Jack Hammer) YT28 Air Leg Rock Drill (Jack Hammer) YT27 Air Leg Rock Drill (Jack Hammer) SL250 Hydraulic Drilling ...

Air leg rock drill machine, compared with jack hammer, is typically bigger and heavy, it needs a pusher as a support to finish drilling task in different directions. Air leg rock drills are widely ...

Air Leg and Small Hole drilling tools are essential equipment used in mining, construction, geotechnical engineering, and tunnelling. These tools are ...

The YT28 air-leg rock drill is a new type of drilling machine which is equipped with an air leg. It has been successfully used in many engineering ...
