

Australian twin screw air compressor supplier

What types of air compressors are available in Australia?

We have Australia's most extensive range of air compressor solutions, from high-performance models to portable and compact units. We also manufacture the latest air storage, air treatment and air distribution solutions.

Which rotary screw compressors are used in Australia?

Most rotary screw compressors sold in Australia use a single stage rotary screw air-end. Sullair has a unique, proven 2-stage technology that employs two-stage VOC air-ends in series. This unique technology is the class leader in energy saving technology. Power advantage of 11 to 13 % over equivalently sized single-stage compressors.

Who is Southern Cross compressors Australia?

Formally Southern Cross Compressors Australia Pty Ltd, our uncompromising commitment to providing high quality products, support and service has underpinned our success in Australia for over 40 years. We look forward to working with you.

Who installs screw compressors?

Air Energy supplies and installs Screw Compressors from leading manufacturers of industrial air-compression systems including Atlas Copco and Sullair.

Why should you buy an air compressor in Australia?

Our air compressors offer unmatched durability and are manufactured using premium-grade materials. We put great value on innovation and quality, which is why we sell air compressors in Australia that are capable of handling large volumes of air supply for commercial and industrial use.

Are screw compressors oil cooled or oil free?

Screw compressors are available either oil-cooled or oil free, but the latter option should only be considered if you need 100% pure compressed air. They can supply large volumes of compressed air and are typically used in applications that have a continuous need for it.
