

Bayshore drill rigs

How much does a Bayshore tr150 cost?

2011 Bayshore TR150 on Deere 450D Carrier. 17 ft Boom, 16 ft 6 in Mast, 18 ft Kelly, 150,000 LBS Torque. A/C Cab, 7595 HRS. 36 in Triple Grouser Track Shoes. \$339,500 2019 Bayshore Systems TR50-63 LoDrill Style Drill Rig. Mounted on a 2019 Komatsu PC170LC-11 Chassis.

How much does a TR60 drill rig weigh?

The TR60 drill rig weighs less than 77,500 pounds despite having a rotary torque of 66,000 ft.-lbs. It can be transported on a standard 5-axle truck without the need for special permitting or a lead car. The TR60 drill rig is ideal for demanding jobs that require serious power. Available with rubber or steel track pads and round locking or square bars.

How deep can a TR60 drill rig drill a hole?

The TR60 drill rig can drill a hole up to a maximum depth of 80 feet. It is available with rubber or steel track pads and round locking or square bars. Despite having a shorter attachment height than the larger TR80, it can drill just as deep.
