

Drilling uncased deep boreholes stabilized by drilling fluid, or drilling cased boreholes with installing casings by the rotary drive or by a hydraulic casing oscillator. If Kelly drilling is your ...

Bauer BG 50 Generally, collapses occur in the ground, especially sand and gravel without cohesion. floors, which are also called self-sustaining floors. In such floors, the solution can be in...

The Bauer BG 12H is a versatile rotary drilling rig designed for a range of drilling applications. It is part of Bauer's advanced line-up of drilling rigs, offering high-performance features and robust ...

Drilling rigs with H-kinematics at a glance Drilling Rig BG 15 H BT 50 Technical details Max. torque (150 kN.m) Max. drilling depth Kelly (44.0 m)

Conductor Drilling A second hole is then drilled with a diameter of 600 - 800 mm (2 - 2.6 ft) from the center of the cellar to a depth of up to 40 m (130 ft) depending on the local geology to ...

Quality machines Bauer Maschinen has built since production fi rst rotary drill rig BG 7, many of them are still in operation Siberia as well as in the desert. State of the art technology by our ...

BG 15 H BT 40 BG 18 H BT 50 BG 20 H BT 60 The H-model line Special features of the V-model line are: - Big borehole diameters - Large drilling depths - Extended service intervals and ...

BAUER Drilling rigs are state-of-the-art Kelly drilling rigs as well as multi-functional rigs for various construction methods in special deep foundation engineering. The best choice for challenging ...

The Rotary Drilling Rig BG 33 H PremiumLine (BT 85) Max. drilling diameter: Max. drilling depth: Max. torque: Max. height: Engine: 2,500 mm 68.4 m 342 kNm 27.4 m CAT C 13 - Stage III ...

than consulting thousands of machines Bauer Maschinen has built since with the fi rst rotary drill rig BG 7, many of them are world - in Siberia as well as in the desert. State of the end-to-end ...

The Bauer BG55 is a powerful, advanced vertical drill rig designed for heavy-duty geotechnical and foundation work. It features high torque output, exceptional ...

The BG 50 rotary drilling rig has an operating weight of approx. 260,5 t and a torque of 468 kNm. It is ideally suited for Drilling cased boreholes (installation of casing by rotary drive or ...

The Bauer Equipment BG40 is a 54-ton track mounted vertical drill rig used primarily for large diameter

## Bg 50 drill rig

drilled shafts, deep soil mixing, cased secant piles, ...

Preliminary Investigation Initial reports stated that an obstruction had stopped the machine in its tracks. Malcolm Drilling received an early morning call on Sunday, December 8, 2013, from ...

Special drilling systems, such as FOW piles, displacement piles The base carrier BT 50 is designed and built by Bauer Maschinen. The engine and the hydraulic power pack are ...

Our multifunctional and robust BG 15 H on the BT 50 base carrier is suited for Kelly drilling, soil mixing techniques and for carrying out soil improvement ...

Maschinen machines: machines Bauer Maschinen has built since production fi rst rotary drill rig BG 7, many of them are still in operation Siberia as well as in the desert. State of the art ...

Our multifunctional BG 20 H BT 50 is suited for Kelly drilling, soil mixing techniques and soil improvement. All details can be found in the overview.

Our multifunctional BG 45 on the BS 95 base carrier is suited for Kelly drilling, soil mixing techniques and for carrying out soil improvement measures.

Welcome to B& G Drilling and Construction, your trusted partner for all things underground utility installation, directional drilling, excavation, hydro-excavation, and utility locating. We're a family ...
