Our database contains thousands of used equipment for sale, which are presented and continuously updated. Wanted!!! Your surplus drill rigs, related components, or vessels.

What is required to close a bop rig?

To close a BOP rig, sufficient usable nitrogen must be available, at a minimum pressure of 8400 kPa, to fully close all BOPs (including 'redundant equipment').

What is a drill rig?

In the simplest terms, a drill rig, also called a "drilling rig" or just "rig," is a machine or equipment that's used to create holes, or "wellbores," in the earth's surface in order to drill for oil, natural gas, water, or other resources.

What are the different types of offshore drill rigs?

Different types of offshore drill rigs can include barge, jack up, semi-submersible, and deep water rigs. Leading manufacturers of new and used drill rigs include Bucyrus-Erie, Gardner-Denver, Ingersoll-Rand, National Oilwell Varco (NOV), Schramm, and SJ Petro.

What is the difference between an offshore drill rig and an offshore rig?

Conversely, offshore rigs are generally more permanent structures, although some offshore drill rigs entail a floating platform that integrates all the other components of the drill operation, including various equipment and tools, living quarters, and means for storage and transportation.
