

Borehole drilling rig for sale in south africa

Can a portable borehole rig be used in South Africa?

Portable borehole rigs from Borehole Drilling Borehole Companies can be used in South Africa by anyone to drill on their private land and extract up to 20,000ltr/day, without an extraction license.

Who can drill a borehole in South Africa?

In South Africa, anyone can drill a borehole on their private land and extract 20,000ltr/day without an extraction license. Borehole Companies have drilled many boreholes across the country for various purposes such as domestic supply for homes, farms, golf courses, livery yards, or just to top up ponds or water gardens.

How much does it cost to drill a hole in South Africa?

The Borehole Water Association of South Africa says the average drill cost is around 600 a meter, but this can be as much as R900 per meter depending on the company. Yield testing will set you back somewhere between R2,000 and R5,000 while the equipment might cost between R20,000 and R40,000.

What types of drilling rigs does borehole solutions offer?

Borehole Solutions provides a range of different, versatile drilling rigs for projects, as well as several casing hire options. These include the Dando 150, 2000, 3000 and 4000 rigs, as well as the Dando Terrier. Further to this, we offer the LHR 1500 and the Archway Dart. For more information on our rig hire service, get in touch.

How much does a borehole cost in South Africa?

Boreholes are a more expensive option than wellpoints, but can access groundwater at far deeper levels, making them a good choice for areas without a high water table. The Borehole Water Association of South Africa says the average drill cost is around 600 a meter, but this can be as much as R900 per meter depending on the company.

Who is the best borehole drilling contractor in Durban?

Snupit brings you the best borehole drilling contractors in Durban. Can you conduct borehole installation yourself? You cannot install a borehole by yourself because it requires deep drilling, far enough to extract substances within the ground, and this requires specialized machinery.
