

British 100 down-the-hole drill rig

The small down the hole drilling rig offers hybrid motor-air performance, designed for efficient rock drilling in tight or steep areas. Click!

Different Models of Down the Hole Drilling Rigs: YGD-70/100 DTH Drilling Rig YGD70/100 DTH drilling rig is a kind of compound power model, powered by a ...

KQTG-150 Down-The-Hole drilling drig offers excellent fuel efficiency, improved safety and higher productivity in challenging rock conditions, which is used for ...

XDQ70/100 Pneumatic DTH Drilling Rig XDQ Series pneumatic DTH drilling rig is widely applied to road, national defence, water conservancy, big stone project and...

The selection is competitive and encompasses top quality products for all your drill & blast as well as well-drilling applications. Robit competitive offering in Down the Hole drilling tools: ...

Intelligent, automated and future-proof The SmartROC D65 down-the-hole drill rig brings the future of mining within your reach today. Give your operation the chance to profit from the ...

Epiroc offers the most comprehensive line of rotary blast hole drilling rigs in the industry. With a multitude of configurations to choose from you can find the perfect solution for your needs.

Having a knowledgeable and available world-class partner on site or online, makes the difference between doing it alone and tapping the experience and ...

DTH drilling, also known as Down-the-Hole drilling, is a method used to drill boreholes into the earth's surface. This technique involves a hammer that is ...

Down-the-Hole refers to where the hammer action occurs when compared to drifter hammers, which hammer on top of the drill string. The DTH hammer piston always makes direct contact ...

Blasthole rigs and drills don't need much explanation. They're used for drilling a hole into the surface of the rock, packing the hole with explosives and then detonating those explosives in ...

An integrated down the hole drilling machine, also known as a one-piece drill rig, or crawler DTH drilling rig is a powerful and versatile machine used in the ...

The MR-5 ID is a hydraulic drilling unit for using 2? or 3? down-the-hole hammer, or rock drill weighing 58

British 100 down-the-hole drill rig

kg with separate right and left rotation, provided with ...

We take pride in having set industry records with our EF-100 model which has achieved the deepest hole ever drilled, solidifying our reputation for innovation ...

This is an energy efficient form of wide-hole drilling (in the hole range of 100-254 mm) that can be performed in both a downward and an upward direction. DTH drilling does not require guiding ...

Mastering the operation skills of down-the-hole drilling rigs can help everyone complete construction tasks more safely and efficiently.

DTH drilling rig, short for Down-The-Hole drilling rig, is a cornerstone of modern drilling technology. Renowned for its efficiency, precision, and versatility, this equipment has ...

Discover the power of down the hole drilling technology featuring superior performance in hard rock, enhanced accuracy, and advanced automation capabilities for efficient and precise ...

Blasthole rigs and drills don't need much explanation. They're used for drilling a hole into the surface of the rock, packing the hole with explosives and then ...

The SKQ100 DTH drilling rig is a pneumatic-powered machine that uses compressed air to generate mechanical force for efficient rock breaking. Driven by a reliable air motor, the ...

A down-the-hole drill, usually called DTH is mainly a pneumatic powered rock or ground drill, in which the percussive hammer is located directly behind the drill bit, so the percussion ...

XD416 Crawler Mounted DTH Drilling Rig Brief Introduction The XD-416 series crawler open-pit down-the-hole drill rig is a new type of down-the-hole drill developed to...

The Sandvik DU411 is our compact In-The-Hole (ITH) centre-articulated drill with an on-board booster. The booster is known for its industry-leading pressure delivery, robust build and easy ...

It operates seamlessly with the drill rig, channeling the air or fluid down through the drill string. The down hole hammer then transforms this energy into a ...

Down-the-hole drilling (DTH) essentially involves a drilling hammer at the bottom of a drill string. It relies on three elements for drilling holes: bit loading (weight), rotation, and air.

Halco Rock Tools Ltd is a world class manufacturer of down-the-hole (DTH) drilling equipment - DTH hammers, drill bits and casing systems. Enjoy the ...
