

Bucyrus 22w drill rig with folding braces videos

How to operate a Bucyrus-Erie drill?

To operate a Bucyrus-Erie drill, the driller can slide the drive gear (or pinion) to the desired reel. This allows both reels to be run with one clutch, making the drills free-running, or free-wheeling.

What is a Ruston-Bucyrus 22-W rig?

The Ruston-Bucyrus 22-W rig is a British-made, versatile cable-tool rig capable of drilling small-diameter wells up to and including larger ones. It is a three-line machine, which is standard for a modern cable-tool-type.

What is a 22 W drill?

The 22-W is a three-line drill with standard components for a modern cable-tool-type. It includes a bull-reel for the drill line, a sand reel for the bailing line, and a casing reel for the hoist line, typically connected to a traveling block or moveable pulley and a hook.

How many strokes does a 22 W drill have?

The 22-W drills have three adjustable strokes: a short 16-inch stroke, an intermediate 26-inch stroke, and a long 35-inch stroke. The 22-W drills have three strokes.

How much does a 22W rig weigh?

A 22-W rig produced since the 1960s, which is a Series II version, is rated at 2,500 pounds at the surface for tools on the intermediate stroke. However, its weight on the long stroke is approximately 1,900 pounds.
