

China jack up drilling rig day rates

Why is the jackup rig market rising?

The heated global jackup rig market has day rates for premium units climbing higher. The jackup market is experiencing increased activity and higher day rates.

Are rig jack-up day rates rising?

By Terry Childs, Head of RigLogix, Westwood Analysis of RigLogix data shows that recently, jack-up day rates around the world had risen to slightly above operating costs, allowing rig owners to finally make a little profit. That trend may not continue in all regions.

How much does a jack-up rig cost?

In the latter region, even though the average 2017 jack-up new contract rate was down from 2016, it was still just over \$65,000. So far this year, however, the average has fallen to under \$50,000. Partly responsible for the decline is at least one recent contract fixture at \$39,000 with reports that several other rigs are being bid around \$40,000.

What is driving the jack-up rig market?

Further, in July 2022, according to IEA, the global gas demand is set to rise by a total of 140 billion cubic meters (BCM) between 2021 and 2025. Therefore, an increase in demand for oil and gas is driving the growth of the jack-up rig market.

Are jackup rigs experiencing an upcycle?

The jackup market is experiencing increased activity and higher day rates. The current upcycle in the offshore drilling market is not limited to the floaters, as the global jackup rig fleet is seeing a marked increase in both activity and day rates, according to Matthew Donovan, a senior rig analyst for Esgian.

How much does a rig cost per day?

RigLogix estimates current tender rig rates at \$48,000 to \$75,000 per day. 07.12.2022 Rig activity in the Asia-Pacific region has picked up markedly this year, according to Westwood Global Energy Group subsidiary RigLogix.
