

China rotary drill rig

Which rotary drilling rig parts factory in East China?

CRIUS DRILL is the largest rotary drilling rig parts factory in East China, providing efficient and stable production capacity. As a leading pile foundation construction enterprise, it has rich construction experience and technical strength. Adhere to quality first, product performance is stable and durable.

What is a rotary drilling rig?

The rotary drilling rig is a very popular drilling rig in recent years. It can be applied to many different types of projects, and the machine is constantly being updated. In order to facilitate customer operation and improve work efficiency. This device has been inquired about by countless customers.

What is the largest rotary drilling rig?

The SR-145 HIT is the largest rotary drilling rig in the Soilmec 'blue' line, with an operating weight of about 145 tons. It is designed as a multipurpose rig and can be easily converted for various technologies.

What is Tysim rotary drilling rig?

Tysim focuses on the R&D and manufacturing of pile machinery, and it is the sole enterprise in China which is dedicated in the development of small and medium-sized rotary drilling rig for civil engineering. The company has obtained more than 40 patents for pile machinery products.

Are rotary drilling rigs eco-friendly?

Better penetration rate and high operational efficiency is achieved by the use of drilling muds that control downhole pressure, stabilize the hole well, remove drill cuttings, and lubricate the drilling bit. The rotary drilling rig is considered eco-friendly because of smaller vibrations and less operating noise.

Why should you choose Tysim rotary drilling rigs?

The rotary drilling rigs produced by Tysim have easy to operate features, higher reliability and higher efficiency. Tysim has passed ISO9001 quality management system certification and high-tech enterprise certification. The whole series of products has passed CE certification.
