

China twin screw air compressor price

What is a twin-screw compressor?

A twin-screw compressor is a rotary positive-displacement machine with built-in volume ratio, no suction or discharge valves, no clearance volume, but with a certain amount of internal leakage. It is a type of compressor with these unique features that make it behave differently from other positive-displacement machines, such as the reciprocating compressor.

Who is screw air compressor manufacturer?

Each air compressor includes filtration and compressed air treatment options. was established in 2011. Our screw air compressor factory in Qidong City, Jiangsu Province, near Shanghai. We are one of the compressor manufacturers who combine production, trade, service and R&D.

What types of air compressors are available?
