

Cme 300 drill rig carrier

What is a CME drill rig?

Central Mine Equipment Company(CME) offers competitive geotechnical and environmental drill rigs that uphold a strong reputation for being powerful,dependable,and versatile. They are mounted on trucks,all-terrain rubber-tire carriers,track carriers with steel grousers or rubber cleats,or on skids or trailers.

What is a cme-55lc/300 rubber track drill?

The CME-55LC/300 rubber track drill has a unique feed and retract systemand a quick disconnect mast that allow you to work under service station canopies,bridges or other overhead restrictions. The overall working height in low clearance mode is only 12 feet,1 inch (3.68 m).

How does the cme-55/300 carrier work?

The system is activated by two conveniently located push button switchesas well as strategically located multi directional wobble switches. The CME-55/300 Carrier comes standard with plenty of auger storage at the front of the carrier without compromising approach angle of the carrier. Two tool boxes are standard,additional boxes are available.

What size slide base does a cme-55/300 track drill use?

Both in-out and sideways slide bases are standard equipment on the CME-55/300 track drill. An 18 inch(45.7 cm) in-out movement allows you to quickly move the drill on and off the borehole and align the sheaves for lifting tools with the cathead or any of the hoists. A 6 inch (15.2 cm) sideways movement gives you even more versatility.

What is the best rotary drill rig?

The versatility of the drill rig to complete jobs historically slated for solely rotary drilling rigs often makes it the most utilized drill rig in the fleet. The CME-55LC mounted on the CME-300 remote controlled all rubber track carrier is the ultimate in enviro/Geotech drills! This Rig is excellent for low clearance sites, with high performance.

What is a cme-55 track rig?

Wheels 16 (4 sets of dual wheels each side). Our CME-55 Track rig is on bombardier tracksthat are a combination of rubber and metal cleats. Making this machine great for remote sites,that are harder to access. This rig is very sturdy and reliable with lots of power to core,DTH,or auger your harder to reach sites.

CME 75 Drill Rig The CME 75 drill rig is one of CME's larger drill rigs. This unit is known for conquering larger jobs requiring deeper drilling depths or bigger ...
