

Cme 95 drill rig specs

What is a CME 75 drill rig?

The CME 75 drill rig is one of CME's larger drill rigs. This unit is known for conquering larger jobs requiring deeper drilling depths or bigger augers. The CME 75 can be truck or track-mounted and also gives the option for enhancing rotation and power. Common variances of the CME 75 include CME 75HT, CME 750, and CME 750X.

What is a CME drilling rig?

CME drilling rigs are mechanically driven multi-purpose machines with an emphasis on auger drilling. They are custom designed to accommodate the drilling needs and preferences of the end user. Each machine can be mounted on skids, trailers, trucks, rubber tracks, or rubber tire ATV carriers.

Can a CME 45 drill rig fit a skid mount?

This particular model can accommodate both truck or track skid mounts for increased versatility. Over the years, CME has adjusted the design and updated the drive systems of the 45 drills to improve end-user operation so various versions of the CME 45 drill rig will surface, including the CME-45B and CME-45C.

Do you sell & rent CME drill rigs?

We Sell & Rent a variety of cme drill rigs to meet your needs! Central Mine Equipment Company (CME) offers competitive geotechnical and environmental drill rigs that uphold a strong reputation for being powerful, dependable, and versatile.

What is the smallest CME drill?

The CME 45 drill is the smallest CME drill model and weighs less than 26,000 lbs., which does not require special permitting for transport. This particular model can accommodate both truck or track skid mounts for increased versatility.

What is a CME 75?

The CME 75 can be truck or track-mounted and also gives the option for enhancing rotation and power. Common variances of the CME 75 include CME 75HT, CME 750, and CME 750X. Several features are seen in all CME models, however, estimations may change based on the drilling conditions:

The largest rigs in our hollow stem auger fleet are the CME 95s. With over 31,000 foot-pounds of torque and four forward gears, there's a rotation speed and torque combination for just about ...

22,900 foot pounds of rotary torque, 48,000 pounds of retract...and designed from the ground up to handle the power with ease. The CME-85 is going to be ...

The Central Mining Equipment (CME) 95 drill rig is the flagship rig of BC2 Environmental's fleet. One of the
