

Comacchio drill rigs

Can Comacchio Geo rigs be used for rotary drilling?

Comacchio GEO line rigs can adapt to virtually any rotary drilling application, as well as rotary percussion drilling techniques, in all geological formations. Moreover, our GEO rigs can be configured for Sonic drilling for ground investigations in challenging ground conditions. Typically, our geotechnical site investigation equipment is used to:

What types of drilling rigs does Comacchio manufacture?

Comacchio produces a large range of hydraulic crawler drilling rigs for many purposes, truck-mounted drilling rigs for geotechnics and water well drilling, as well as excavator-mounted drilling machines for tasks as soil improvement and anchors.

Who sells and rents Comacchio drill rigs?

Hammer & Steel, Inc., sells and rents the Comacchio CH, MC, and MC-E Lines of drill rigs and drilling tools.

Why should you choose Comacchio MC line rigs?

With a view to improving productivity and safety levels, the Comacchio MC line rigs can be offered with an array of automated rods and casings handling solutions.

What is a fully articulated drilling rig?

The result is the great versatility in the use of these drilling rigs: our fully articulated rigs cover the entire spectrum of geotechnical engineering applications (micropiles, anchors, tie rods, soil nails, jet grouting) and are capable of operating in the most challenging jobsite conditions.

What is a rotary drill rig used for?

The larger units in the range can also be used to perform rotary drilling (with either direct or reverse mud circulation) and DTH drilling for water well construction projects and ground source heat pump systems (geothermal drilling).

Comacchio Drill Rigs & Drilling Tools Hammer & Steel, Inc., sells and rents the Comacchio CH, MC, and MC-E Lines of drill rigs and drilling tools.

The Comacchio CX line includes a diversified selection of models, ranging from lightweight and compact units, suitable for exploration drilling up to 1000 m depth with NQ rods, to heavy ...

The MC 12 is a versatile and powerful hydraulic drilling rig designed for civil engineering works such as micropiles, anchors, jet grouting and ground ...

The MC 15 is a compact high-performance drilling rig designed for civil engineering works such as

Comacchio drill rigs

micropiles, anchors, jet grouting and ...

The MC 22A is the new MC 22 drill rig version featuring the innovative hydraulic rod & casing carousel. The machine is completely remote controlled, thanks to ...

Thanks to the experience gained in the field alongside our customers around the world, Comacchio has developed a series of accessories and ancillary ...

Variety of movements The MC 22 is the iconic rig of the Comacchio fleet. Conceived in 1997, the MC 22 was the first drilling rig equipped with the ...

The Comacchio range of geotechnical and geo-environmental site investigations equipment includes four truck mounted drilling rig models, that can be used for conventional and wire line ...

Equipped with advanced modular hydraulic circuits, the MC 28 can utilize a wide range of rotary heads, hydraulic drifters, double head systems, water and mud pumps, winches and rod ...

Hydraulic crawler mounted drilling rigs, with a pull up capacity ranging from 7 to 20 tonnes, configured for rotary drilling with single-head systems, able to meet the different requirements ...

The Comacchio CX line of exploration drilling rigs includes four truck-mounted rigs that range from lightweight compact units installable on small 4x4 trucks, ...

Comacchio MC Line - The basic line of multiuse rigid and articulated hydraulic crawler drilling rigs which are suitable for several types of specialized works, ...

Truck Mounted Drill Rigs Hydraulic truck mounted drilling rigs trucks, with a pull up capacity ranging from 10 to 30 tonnes, ideally suited for vast exploration ...

CFA and FDP piles The MC 40 is a high performance hydraulic drilling rig covering a wide range of civil engineering works such as micropiles, CFA / ...

Roll-off system The MC 8D is a versatile and powerful hydraulic drilling rig, designed for civil engineering works such as micropiles, anchors and ground improvement in general through ...

Fully articulated drilling rigs in a weight range from 3 to 30 tonnes, offering incomparable versatility and high productivity. Thanks to the Comacchio patented mast articulation system, these ...

Advanced modular hydraulic circuits The MC 8 is an extremely versatile and powerful small/medium size hydraulic drilling rig, designed for civil engineering ...

Comacchio drill rigs

Comacchio produces a large range of hydraulic crawler drilling rigs for many purposes, truck-mounted drilling rigs for geotechnics and water well drilling, as well as excavator-mounted ...

The MC 12 is a versatile and powerful hydraulic drilling rig designed for civil engineering works such as micropiles, anchors, jet grouting and ground improvement in general. The rig's ...

Hammer & Steel sells and rents Comacchio MC 28 HD drilling rigs for specialized work including ground consolidation, anchor drilling, water well drilling and ...

Heavy duty Developed as the heavy duty version of the MC 28, the MC 28 HD is a very compact and powerful drill rig. It is the ultimate solution to take heavy ...

The GEO 602 is a compact and powerful drilling rig suitable for many geotechnical works. This rig incorporates a particularly flexible design and can ...

Hammer & Steel Inc., sells and rents a full line of Comacchio multiuse ridged and articulated hydraulic crawler drill rigs in the U.S.

The Comacchio MC-28D is a versatile drilling rig designed for micropiles and anchors construction, boasting a reinforced undercarriage and adaptable mast ...

Crawler and truck mounted hydraulic drilling rigs with a pull up capacity ranging from 10 to 30 tonnes, designed and optimized for the construction of water and geothermal wells with the ...

Jet grouting The MC 30 is a high performance hydraulic drilling rig designed for civil engineering works such as micropiles, CFA piles, jet grouting and ...
