

Core drill rig generator

Where can I buy a core drill rig?

Diamond Tool Store carries a wide range of core drill stands, motors, and bits that are made to last and make the cut. Core drill rigs, also known as core drilling rigs, are specialized machines used to extract cylindrical samples (cores) from various materials such as rock, soil, concrete, and asphalt.

Who makes diamond core drill rigs?

Our diamond core drill rigs include name brands such as Husqvarna, Diamond Products, Golz, Norton, MK Diamond, Metabo, and Abaco. Our concrete core drilling equipment is designed to work with diamond core bits to core (remove cylinder of material) from concrete and stone.

Where can I rent a core drilling rig?

We supply brand name core drilling rigs from VersaDrill Canada and more. Depending on company needs, this core drilling equipment can be rented, purchased, or acquired through our flexible RPO and leasing options. Where Can You Rent Core Drilling Rigs? Right here at Rig Source, of course!

Who is core drilling?

We are a leading supplier of mining equipment. Core drilling is a specialized area with a unique set of demands. For more than 100 years, people around the world have depended on our rigs to deliver excellent results.

What equipment do you need to operate a core drill rig?

PPE: Use appropriate personal protective equipment, including helmets, gloves, safety glasses, and hearing protection. Training: Ensure operators are trained and experienced in using core drill rigs and handling drilling fluids. Maintenance: Regularly maintain and inspect the rig and associated equipment to ensure safe and efficient operation.

What is a drill rig frame?

Drill Rig Frame: The structure that supports the drilling mechanism and other components. It can be mounted on trucks, trailers, or portable platforms. Drill Head: Houses the motor and drive mechanism that rotates the drill string and core barrel. Core Barrel: A cylindrical tube that holds the core sample as it is being drilled.
