

Cubex drill rig

What is a CubeX drill rig?

Cubex's line of track mounted or rubber-tired articulated drill rigs and booster compressors deliver superior drilling at a lower cost per ton for production. The robust ITH drills can also be utilized for drilling service holes, V-30 slot-raising and Wassara Water Hammer applications.

How many underground drill rigs does CubeX have?

With more than 35 years experience in the supply of mining equipment for the global mining market, Cubex has an install base of more than 500 underground drills and supporting products. Cubex has been established as the global leader in designing and manufacturing underground In-The-Hole (ITH) drill rigs.

What is a CubeX Orion rig?

The Orion is a step above the 5200. Being equipped with a heavy hoist mast enables this rig to drill bore holes as large as 610mm (24" Canister) or 762mm (30" V-30). The availability of a diesel engine also adds value to this rig for easy mobility. Cubex Ltd reserves the right to change this specification without further notice.

Who is CubeX?

Cubex is a drilling solutions provider focused on the design and manufacturing of a wide range of underground in-the-hole (ITH) and geo-technical drilling equipment. Cubex's products are distributed globally and its current main markets are the United States, Canada, Africa, South America and Australia.

When will Sandvik acquire CubeX?

The acquisition is expected to be completed in the second quarter of 2013. "We already have a strong co-operation with Cubex and since 2009, Sandvik has served as the global distributor responsible for sales and service of Cubex products worldwide," said Gary Hughes, president of the Sandvik Mining business area.

Where are CubeX products made?

Cubex's products are distributed globally and its current main markets are the United States, Canada, Africa, South America and Australia. In 2012, Cubex had around 110 employees, with its head office and manufacturing facility based in Winnipeg, Canada. Cubex has retained its municipal and oil and gas operations.

We engineer an extensive range of underground drill rigs for mining development and production. Available in a variety of feed lengths, boom configurations and size classes, our underground ...

Being equipped with a heavy hoist mast enables this rig to drill bore holes as large as 610mm (24" Canister) or 762mm (30" V-30). The availability of a diesel engine also adds value to this rig ...

Our range of used underground tunnelling and boring machinery available for sale, includes brands such as;

Cubex drill rig

Solatu, Herrenknecht, Akkerman, Bohrtec, Cubex, Sandvik, Atlas Copco, ...

Sandvik DU411 is a center-articulated, carrier-mounted in-the-hole (ITH) drill that provides highly accurate drilling and enhances profitability with the lowest cost ...

The Cubex Orion 5200 is a track mounted utility drill rig with an onboard booster designed for long hole drilling using ITH hammers powered by high pressure ...

The 5200 is a small and versatile electric hydraulic drill designed to effectively drill production blast holes and is capable of drilling Ventilation Raises, Ore and Waste Passes, Production ...

Utilizing the Cubex Orion, Andean Drilling brings precision, efficiency, and innovation to each canister slot drilling project. Our expertise and state-of-the ...

Complete Field Maintenance offer OEM and replacement parts to suit a range of Cubex drill rigs. Complete Field Maintenance specialize in Surface Down the ...

Sandvik has signed an agreement with Cubex Limited (CUBEX) to acquire its drilling solutions business and operations. CUBEX is an industry-leading drilling solutions ...

Buy used Surface Drill Rigs from Atlas Copco, Cat, Epiroc, Sandvik, Cubex, Hutte and more. Buy with confidence with our IronClad Assurance[®];

Cubex's line of track mounted or rubber-tired articulated ITH drill rigs and booster compressors deliver accurate long production holes. These robust and accurate drills can also be utilized for ...

Cubex has been established as the global leader in designing and manufacturing underground In-The- Hole (ITH) drill rigs. Cubex's line of track mounted or rubber-tired articulated drill rigs and ...

The Cubex QXR1320 is a diesel-powered DTH crawler-mounted surface mining drill. Ideal for drilling production, pre-split, pioneering, dewatering and RC in ...

Cubex is actively involved in the sales and support of capital equipment to the mining industry around the world. Kitch Wilson, President of Cubex says: "On six continents, the QXR has ...

Cubex Mining Products 2006 - Read online for free. The document provides specifications for several underground drilling rig models produced by ITH, ...

Browse our extensive inventory of new and used Cubex drilling rig from local Cubex dealers and private sellers. Compare prices, models, trims, options and specifications between different ...

Cubex drill rig

Cubex Orion The Orion is a heavy duty Cubex In-The-Hole (ITH) track mounted drill with an on-board booster. It is the most robust track mounted drill offered and is capable of drilling with ...

The Cubex QXW Series is a versatile and efficient surface drill rig designed for precision drilling in geotechnical and construction applications. Utilizing advanced water-powered Down-The-Hole ...

TECHNICAL SPECIFICATION Sandvik DU311 is a highly versatile and compact ITH longhole drill fitted with an onboard booster and designed for underground mining in 4 x 4 m or larger ...

The Cubex Aries is an integrated underground mining drill unit that combines an ITH drill with an on-board booster mounted on an articulated carrier. It is ...

Cubex-Aries-Specification-March-22-2010 - Free download as PDF File (.pdf), Text File (.txt) or read online for free. The Aries drill is an ...
