

D-120 drill rig

What is a D120 drill rig?

The D-120 is a large, heavy-duty, high power, multi-purpose drill rig. This drill has earned a reputation as a powerhouse in the geotechnical, exploration & environmental drilling industries. The D-120 is powerful enough to handle large diameter hollow stem augers, yet versatile enough to drill efficiently on small auger, rotary and core jobs.

What drilling capabilities does a D120 have?

The D-120 is mounted on a 4 wheel drive all terrain carrier with 25" wide traction grip rubber flotation tires giving it the capability to access steep or soft terrain. The drilling capabilities include hollow stem auger up to 18" diameter, mud rotary, rock coring, air rotary/down the hole hammer, and CME continuous soil coring.

What is the difference between a D-70 and a d-120 drill rig?

The D-70 boasts an industry leading track system, a robust rotary drive with all the options you need, all connected by a heavy duty frame that is ready to work! The D-120 is a large, heavy-duty, high power, multi-purpose drill rig.

Which ATC rig is best?

Our D-120 ATC rig is one of the most powerful all terrain production rigs currently available. This rig has nearly 22,000 lb-ft of torque at the drive spindle. For comparison, this rig produces more drilling torque than the CME 85.

Why Rent or Purchase Drill Rigs from Rig Source? At Rig Source, we are a leader in the drilling industry, known for providing quality drilling units for your ...
