

Deep water drilling rigs videos

What is a deep drilling rig?

A deep drilling rig is a specialized type of drilling rig designed for deep drilling projects. Herrenknecht Vertical's innovative deep drilling rigs offer several advantages over conventional rigs, making them suitable for exploratory drills in oil and gas fields, as well as deep geothermal energy projects.

What types of drilling rigs are available?

The drilling videos featured here on our website showcase the capabilities of various types of drilling rigs, including water well drilling, auger drilling, core drilling, and more.

How deep can a water bore drilling rig reach?

Our rigs can reach depths of over 150m, depending on the geology and water table. Learn more about bore depths in QLD. Learn more about how deep are water wells, and watch the exciting video of our founder and chief Harry Hensen controlling the water bore drilling rig and reaching water at a depth of 75m at a recent customer's property.

How deep can a drilling rig Drill in the Gulf of Mexico?

By the last decade of the 20th century, advanced technology ensued and new depth records for drilling reached 7,625 feet in the Gulf of Mexico. New technologies have produced drilling rigs capable of drilling 250 miles offshore to ocean depths exceeding 10,000 feet and an additional 28,000 feet below the seabed.

Why are offshore deep water wells drilled?

Drilling wells is one of the most important activities in the process of finding hydrocarbon reservoirs and producing oil and gas from these reservoirs to meet our energy needs. This video by Shell explains the basics of how offshore deep water wells are drilled, including explanations

How does a bore drilling rig work?

A bore drilling rig uses hydraulic power to drive a rotary drill bit deep into the ground. It also pumps water or drilling fluid to clear debris from the hole. Read more about the drilling process. 2. How deep can your rig drill? Our rigs can reach depths of over 150m, depending on the geology and water table. Learn more about bore depths in QLD.

This sunmoy HF300D water drilling machine is widely used for geothermal drilling, farm irrigation, house yard, gardens and water well drilling, drilling diameter is 80-300mm, and max drilling ...
