

Dowel drilling rigs for concrete spokane

Why do you need a concrete drill & dowel drilling machine?

Our high-quality concrete drills and dowel drilling machines deliver maximum accuracy so you and your crews can do the job once, do it right and move on. From airport runway expansions, lane additions, full-depth repair patching to gas leak pinpointing we have the solution to meet your needs.

Does a dowel drill need a VDCs?

When drilling concrete outdoors, dowel drills need to be equipped with a VDCS. A HEPA- filtered vacuum must be used when cleaning dust from holes. Use of dowel drills indoors or in an enclosed space, or drilling materials other than concrete, is not covered by Table 1. VDCS can reduce silica exposures when using dowel drilling rigs.

Do you need a vacuum for a dowel drilling rig?

A HEPA- filtered vacuum must be used when cleaning dust from holes. Use of dowel drills indoors or in an enclosed space, or drilling materials other than concrete, is not covered by Table 1. VDCS can reduce silica exposures when using dowel drilling rigs. VDCSs include a dust collector (hood or shroud), vacuum, hose, and filter(s).
