With a reliable down hole hammer and high-quality DTH bits, you can tackle even the most challenging drilling conditions. Numa is the best DTH provider, ...

A Down-the-Hole (DTH) hammer is a drilling tool that operates at the bottom of a drill string, using compressed air to power a piston and deliver high-impact energy, enabling ...

Down-the-hole (DTH) hammer drilling is a method of rock drilling that uses a pneumatic hammer to pulverize the rock at the bottom of the hole. This technique allows for faster and more ...

In the field of modern drilling, efficiency and precision are crucial, especially in challenging terrains with fractured rock or loose formations. This is where ...

The DTH/ ITH drill quickly became popular for production drilling in open stopping, because of its productivity, and straight hole accuracy. ITH technology can be used for drilling up holes as ...

Oil & Gas Pre-Drilling - DTH hammers are commonly used for surface casing holes and conductor pre-drilling in offshore or remote locations. ...

Once drilling starts, the Odex drill bit quickly cuts ahead of the steel casing which enables a number of "wings" on the bit to open out. The bit can now drill a hole ...

Customized geotechnical solutions TerraRoc offers customized geotechnical solutions and drilling equipment for a full range of casing advancement systems, down-the-hole hammers and core ...

In down-the-hole drilling a drill rod is fitted with a hammer at its lower end. The hammer, which is mounted on the drill bit, is activated through the addition of compressed air and driven into the ...

We furnish Drifts for Tubing, Drill Pipe Tool Joints and Casing. There are several different types of material these can be built from - Steel, Urethane, Teflon, ...

The eccentric casing system primarily consists of a DTH hammer, eccentric casing drilling tools, a casing shoe, and a casing. In this system, ...

Oil & Gas Pre-Drilling - DTH hammers are commonly used for surface casing holes and conductor pre-drilling in offshore or remote locations. As demand for deeper, faster, ...
