

Dr560 drill rig

What is a Sandvik dr560 drill?

Our Sandvik DR560 diesel-powered, high-pressure down-the-hole (DTH) drill delivers leading penetration with an up to 34.5 bar (500 psi) compressor. The large air volumes deliver performance in pre-split and production drilling, and the heavy-duty structure allows for optional RC package for in-pit grade control.

What makes the dr560 a good drill?

The DR560 has a comfort grip handle for added comfort and a 360-degree side handle for added control while drilling. Additionally, a reversing brush system provides full power in forward and reverse. The DR560 is great for drilling holes, or driving large fasteners through wood, metal and plastic.

What is a Black+Decker dr560?

These items are shipped from and sold by different sellers. The BLACK+DECKER DR560 7.0 amp 1/2-inch drill/driver is a powerful and compact drill that easily handles the toughest applications. It has an all metal keyed chuck for durability and better bit retention and the mid-handle design offers balance and control.

How many chucks does a dr560 have?

The DR560 7.0 amp 1/2-inch drill/driver comes with one chuck key and holder, as well as one side handle. Since 1910, BLACK+DECKER has been setting the standard for innovation and design of power tools, accessories, outdoor yard care equipment, home cleaning products, automotive and lighting products, hardware, and other home improvement products.

What is a dr560 Chuck used for?

The DR560 is great for drilling holes, or driving large fasteners through wood, metal and plastic. The DR560 7.0 amp 1/2-inch drill/driver comes with one chuck key and holder, as well as one side handle.
