

Drill rig collapse slc

What happened to a drill rig in Salt Lake City?

SALT LAKE CITY -- A drill rig collapsed in downtown Salt Lake City Tuesday night, landing on top of two parked cars and injuring the operator. According to the SLC Fire Department, the rig collapsed around 9 p.m. and fell about 20 feet, landing on two parked cars near 200 S. State Street.

What happened to the drill rig operator?

The operator inside fell about about 20 feet and suffered a fracture in his back, but is currently listed in good condition. The drill rig operator was a subcontractor with the Morris-Shea Bridge Co. who was preparing soil for foundation work at the site of the future "Astra Tower," a 39-story luxury apartment building.

Does Utah require drill rig operators to be certified?

Utah Occupational Safety and Health - which also oversees workplace safety on behalf of the federal government - will investigate the accident. But unlike, for example, cranes, the federal government does not require operators of drill rigs to be certified.
