What parts do drilling rigs need to be replaced?

Drilling equipment undergoes significant stress, leading to the wear of certain components. At AGA Parts, you will find spare parts for drilling rigs that most often need replacement: Drill rods - a key element of the drilling rig that wears out from constant contact with rock. Bits and crowns - wear out when interacting with hard materials.

What brands of drill rig parts do you carry?

We carry spare parts for top drill rig brands such as Diedrich, Atlas Copco, Geoprobe, CME, Acker, Mobile Drill, VersaDrill Canada, GtechDrill, and many others. We also offer drill rig tooling packages for direct push, geotechnical, hollow stem auger, core, and rotary drilling rigs, ensuring you get only the highest quality parts.

What are hydraulic drilling rigs?

Hydraulic drilling rigs - provide high precision and power during drilling. Each type of equipment requires reliable spare parts to ensure long-term and efficient operation. Drilling equipment undergoes significant stress, leading to the wear of certain components.

What are the different types of drilling rigs?

Percussion drilling rigs - applied for drilling in soft soils. Pneumatic drilling rigs - suitable for working in rock formations due to their powerful deep impacts. Hydraulic drilling rigs - provide high precision and power during drilling. Each type of equipment requires reliable spare parts to ensure long-term and efficient operation.
