

Drilling rig abbreviations

What are the abbreviations for drilling terms?

This document provides abbreviations and descriptions for drilling terms used in the oil and gas industry. It lists 384 abbreviations in numerical order along with their corresponding full descriptions. Some common abbreviations included are BOP (Blow Out Preventer), RPM (Revolutions Per Minute), and ROP (Rate of Penetration).

What are the acronyms and abbreviations used in the oil & gas industry?

The oil and gas industry uses many acronyms and abbreviations. This list is meant for indicative purposes only and should not be relied upon for anything but general information. FPO - floating production and offloading - vessel with no or very limited (process only) on-board produced fluid storage capacity.

What does pig mean on a rig?

Pig: A device inserted into pipelines for cleaning or inspection. Pusher: Short for toolpusher; the person in charge of drilling operations on the rig. Queen: A derogatory term for someone avoiding work or taking excessive breaks. Rat Hole: A hole on the rig floor used to store the kelly when not in use.

What is a drilling procedure?

Drilling Procedure - The engineering plan for constructing the wellbore. The plan includes well geometries, casing programs, mud considerations, well control concerns, initial bit selections, offset well information, pore pressure estimations, economics and special procedures that may be needed during the well.

What is air drilling?

Air drilling n: a method of rotary drilling that uses compressed air as the circulation medium. The conventional method of removing cuttings from the wellbore is to use a flow of water or drilling mud. Compressed air removes the cuttings with equal or greater efficiency.

What is measurement-while drilling?

This measurement differs from the "true vertical depth" of the well in all but vertical wells. Measurement-while Drilling ("MWD") - The evaluation of physical properties, usually including pressure, temperature and wellbore trajectory in three-dimensional space, while extending a borehole.

This document is a comprehensive listing of acronyms related to oil and gas exploration and production. The acronyms span various aspects of the ...

The Subsea Oil and Gas Directory contain an oil and gas related terms, abbreviations and acronyms database with over 2,000 records. Browse by first letter or use the search engine on ...

n preparation for drilling or well servicing operations. Rig up begins when the first rig components have

Drilling rig abbreviations

arrived at the wellsite, and ends when the rig is ready to spud the well. ...
