

Drilling rig booms

Drilling rigs are widely used in mining and road tunnel construction. An important requirement for these machines is maintain the drill orientation constantly parallel to the main ...

The Boomer S10 face drilling rig is engineered for demanding mining and tunneling applications. Its highly durable design ensures precise positioning, rapid drilling cycles and reliable ...

KJ421 hydraulic tunneling drilling rig is a two-boom jumbo designed for drilling vertical, inclined and horizontal blast holes and bolt holes.

As the professional manufacturer of drilling jumbo / face drilling rigs, Siton produce and sell single and double booms drilling rigs. Recently, we has focused on developing a versatile, reliable ...

Robust face drill Equipped with two powerful BUT S booms, Boomer S2 is the most productive drill rig in its class. This compact face drilling rig is smarter and tougher in small drifts. ...

Designed and built for demanding multi-role face drilling, the new Boomer M20 is a powerful and highly productive development drill rig. Heavy-duty booms with protected sensors, electrics and ...

TECHNICAL SPECIFICATION Sandvik DT821 is a two-boom electro hydraulic jumbo for fast and accurate drilling in tunneling and cavern excavation. The hydraulic controlled drilling system ...

The new booms of the Boomer M20 S jumbo drill rig feature internal hydraulics and a hoseless design. This means less unplanned downtime for hose repairs ...

The Boomer 282 available from Atlas Copco is a twin-boom hydraulic face drilling rig designed for small to medium sized tunnels and for mine production with ...

A patented semi-automatic drill bit changer: the bits are changed from a safe location, enhancing productivity and reducing the risk of personnel exposure to hazardous ground conditions. Our ...

DW3-180 three-boom drill jumbo is specially developed and manufactured for tunnels of high-speed railway, water conservancy and hydropower projects, ...

The new booms of the Boomer M20 S jumbo drill rig feature internal hydraulics and a hoseless design. This means less unplanned downtime for hose repairs which will increase productivity ...

Sandvik DD312i is an advanced single boom development drill for underground mine development and small

Drilling rig booms

scale tunneling. It features a compact carrier and ...

Siton DW2-120 two booms drilling jumbo is specially designed for tunnels of high-speed railway, water conservancy and hydropower projects, national defense ...

Sandvik DT821 is a two-boom jumbo designed for fast, accurate tunneling and cavern excavation drilling. It can be equipped with hydraulic or electronic ...

DW2-180 Eagle arm full process double booms drilling jumbo is specially designed for multi-step synchronous and full-face excavation. The design of lengthened drill boom solves the defect ...

Sandvik DD211L is an electro-hydraulic development drill engineered for excavations with headroom as low as 2 meters (6.5 ft). It has a robust ...

SITON is a professional manufacturer and supplier of jumbo drill machines in China. Double boom jumbo is a kind of two boom underground drilling jumbo machine typically used in tunneling ...

The underground jumbo drill rigs from Epiroc are used for blast hole drilling in underground mining and tunneling. The rigs are equipped with up to four ...

The "All Star" two-boom rig Boomer 282 is a world popular face drilling rig installed with two robust BUT 28 booms and available with a variety of rock drills. Stable and highly efficient ...
