

Drilling rig elevators explode

DDZ series elevators are center latch elevators with 18-degree taper shoulder, applied in handling the drill pipe and drilling tools, etc. The load ranges from ...

An elevator is used to raise and lower the drilling string in and out of the wellbore by latching around the top of the drill string joints. Most elevators are hinged and the drilling rig team can ...

Following jarring operations, when pulling out of the hole, the cover on the elevator hydraulic fittings came loose and fell toward the floor. The derrickman noticed the cover had ...

The West Vela drill crew was picking up a 9-7/8" x 10-7/8" tieback casing string using Frank's International spider type elevators. While lowering the elevators over the casing, ...

While our 3 station system is ideal for modern drilling rigs with air purged drill shacks, providing communication from the Driller's cabin to the rig floor and ...

The implementation of SkyRex in processes have helped our customers increase productivity and minimize safety risks. Customers have been able to complete casing operations more quickly ...

The 2018 explosion and fire outside Quinton, Okla., killed five people, making it the deadliest accident in the drilling industry since 2010, ...

Rig explosions, fires, capsizing/sinking, oil spills, and the loss of workers and marine lives have been the most catastrophic forms of offshore oil and gas drilling disasters in ...

Lake Petro provides Elevators for oil & gas drilling industries. All of our elevators are designed and manufactured according to 8A/8C spec.

Massive Refinery Explosion Drilling Rig Elevators Explode Unit Rig #339 Tornado Cell Phone Video Oilfield Dance Class-Dancing With The Stars UNIT Rig #35 Blows Out While Drilling For ...

Beckets and bails serve a very specific, yet crucial, purpose in drilling rig operations. A becket is an inverted U-shaped bar that attaches to the main ...

DDZ series elevators are center latch elevators with 18 degree taper shoulder, applied in handling the drill pipes and drilling tools, etc. The loads range from ...

Understanding the Key Features of Top Drilling Rig Elevators for Optimal Efficiency When it comes to

Drilling rig elevators explode

getting the most out of your drilling operations, choosing the right drilling rig ...

The New York Times has published a detailed, harrowing account of the what it was like to be onboard the doomed Deepwater Horizon drill rig when the Macondo well blew ...

February 14-15, 1982 - The Ocean Ranger was a mobile offshore drilling rig that sank to the bottom of the ocean off the coast of Canada. During ...

Vladimir Putin has suffered another dramatic blow after a drilling rig collapsed and burst into flames in Siberia, leaving three workers in critical ...

Keystone Drill Pipe Elevators KET is a leading manufacturer of Drill Pipe Elevators. We design and precision-machine all of our elevators to meet and ...

The Deepwater Horizon rig was drilling an oil well in the Macondo prospect that was intended to be plugged with cement and then completed ...

Home Products Drilling Rigs Parts and Equipment Handling Tools Drill Pipe Elevators Drill Pipe Elevators Product Description Western Silverline offers a complete series of 18 degree ...

After the explosion of the Deepwater Horizon oil rig, investigators focused on the failure of a component on the well's blowout preventer that is ...

Oil rig elevators, also known as personnel elevators or simply rig elevators, are vertical transportation systems used to move workers, tools, and supplies between decks of an ...

If you've ever been on a drilling site, you know just how vital an oil rig elevator--sometimes called a drill pipe elevator--really is. This isn't the kind of elevator you'd find in a building; instead, it's ...

Since we began drilling for oil, numerous explosions, fires, accidents, and disasters have occurred on oil rigs and drilling sites. The following oil rig disasters are among the worst: ...

This checklist had two items to verify the correct inserts are used: 1) Verify the size of the pipe that the elevators are to be used with. 2) Physically measure the internal bore of the elevators to ...

When you hear the word "elevator," chances are you picture a box carrying people up a building. But deep in the world of drilling rigs, elevators are doing some heavy lifting of their own -- only ...

OverviewExplosion and oil spillDesignHistoryAftermathMovieExternal linksAt 7:45 p.m. CDT on 20 April 2010, during the final phases of drilling the exploratory well off the gulf of Mexico, a geyser of seawater erupted from the marine riser onto the rig, shooting 70 metres (230 ft) into the air. This was followed soon by

Drilling rig elevators explode

the eruption of a slushy combination of drilling mud, methane gas, and water. The gas component of the slushy material quickly transitione...

Keystone Drill Pipe Elevators KET is a leading manufacturer of Drill Pipe Elevators. We design and precision-machine all of our elevators to meet and exceed API Standards (API 8C), with ...

Elevators: Essential Lifting Equipment in Drilling & Well Completion In the oil and gas industry, elevators are indispensable tools for handling and lifting tubular goods, such as drill pipe, ...

Designed for efficiency, our hinged, load-bearing hydraulic elevators streamline the lowering and lifting of landing string, drill pipe and other components in and out of the wellbore, saving up to ...
