

Drilling rig slang terms

What is the difference between a drill rig and a dope?

Dope: A thick lubricant used on pipe connections. Drill string: A column, or string, of pipe that transmits drilling fluid (via the mud pumps) and torque (from the Kelly drive or top drive) to the drill bit. Driller: The crew supervisor on a drilling rig, working under the toolpusher.

What does roughneck mean on a drilling rig?

Commonly found on older drilling rigs that do not have a Top Drive. ROP Rate of penetration - the rate at which you are drilling. Roughneck Person that works in the Oilfield but not in management. Roughneck and Rig Hand both refer to the same position on a rig.

What is a drilling fluid?

Used to describe any method for retrieving oil from a well and bringing it to the surface after the well ceases to produce. Solid or high-viscosity hydrocarbons found in natural deposits or in petroleum refining residue that are used as additives of oil- and water-based muds (drilling fluids).

What does pig mean on a rig?

Pig: A device inserted into pipelines for cleaning or inspection. Pusher: Short for toolpusher; the person in charge of drilling operations on the rig. Queen: A derogatory term for someone avoiding work or taking excessive breaks. Rat Hole: A hole on the rig floor used to store the kelly when not in use.

What is a drilling procedure?

Drilling Procedure - The engineering plan for constructing the wellbore. The plan includes well geometries, casing programs, mud considerations, well control concerns, initial bit selections, offset well information, pore pressure estimations, economics and special procedures that may be needed during the well.

What does put out mean on a rig?

Put-out A common phrase said in the oil patch referring to the effort your giving. This phrase would hold the same meaning if somebody said "put your back into it." Ex: worms don't put out. Rat Hole A storage place for the Kelly when the rig is not drilling. Commonly found on older drilling rigs that do not have a Top Drive.
