Do offshore oil rigs operate near land?

In the Gulf states where there is a lot of offshore oil drilling platforms, there are offshore oil rigs that operate near land. Such oil rig companies sometimes hire temporary workers with no experience on day rates during periods of high activity.

Do oil rig companies hire temporary workers?

Such oil rig companies sometimes hire temporary workers with no experience on day rates during periods of high activity. All that the oil service employer needs from such temp oil workers is a strong back, the skill to follow instructions and the ability to swim so that they do not drown if they fall off the boat transporting them.

What are oil rig jobs?

Oil rig jobs are positions you may pursue on an oil rig structure. Oil rigs are structures above a drilling site. They can be located on land or in water. Drilling rigs are a type of oil rig used for land drilling, and oil platforms are the structures located in the water. On these structures, professionals can work in a variety of positions.
