

Drilling rigs in permian basin videos

How many rigs does Permian Resources drill?

Operational Plans Permian Resources is currently operating an eight-rigdrilling program and expects to reduce to a seven-rig program in November. This development program is expected to deliver total equivalent production of 140 to 150 MBoe/d (~52% oil) during the fourth quarter of 2022.

Why is the Permian Basin a critical area for oil production?

The Permian Basin remains a critical area for U.S. oil production,with a dynamic landscape of operators adjusting their strategies in response to evolving market conditions. While some operators scaled back their drilling activity,others ramped up their efforts,highlighting the diverse approaches within the industry.

Why is the Permian Basin so important?

The Permian Basin continues to be one of the most prolific oil and gas regions in the world. The drilling activity across the region reflects ongoing efforts by operators to maximize production while navigating market dynamics.

How does oil drilling work?

Sometimes the drill does not strike oil until it has traveled five miles beneath the earth's surface, and many times it does not strike oil at all, leaving only a dry hole. If the drilling is successful, the crude oil that is drawn up in the earth is pumped through pipelines or carried by tanker ship to a refinery, where it is processed.

Visit an oil rig in Texas"s Permian Basin and learn how petroleum is pumped and refined along the Gulf Coast
Learn how crude oil is heated to condense into gasoline, kerosene, diesel fuel, bitumen, and other products

Enverus " Permian Basin rig count stood at 290 rigs as of the week ended Feb. 21, a gain of three weeks from the previous week but down 22 rigs or 7% from 312 last year.

Below is a summary of the top 15 operators in the Permian Basin by wells drilled in 2024, comparing their activity levels with 2023 to showcase trends and changes across the ...

The Permian Basin remains a cornerstone of energy production in North America, with companies like XTO Energy continuing to make ...

Counts of active drilling rigs in Permian Basin, Texas and U.S. declined in the past week, according to the weekly report of March 7 by Baker Hughes. The U.S. count of 592 - ...
