Will Vista Energy add a third drilling rig to Vaca Muerta shale?

(WO) - Vista Energy and Nabors Industries signed a contract to add a third drilling rig to accelerate Vista's assets in Argentina's Vaca Muerta shale. Nabors will deploy a high-spec rig with "cutting-edge technologies," according to a press release. It is scheduled to commence operations in the second half of 2024.

Does Vaca Muerta have a shale oil rig?

The company develops high-quality, low-cost assets in Argentina. In Vaca Muerta, it operates 110 producing shale oil wells and has an inventory of approximately 1,150 wells. Earlier this year, using Nabors provided technology, Vista electrified the first drilling rig in Vaca Muerta, Nabors PACE F24, which is entirely powered by renewable energy.

Will a 3rd drilling rig help Vaca Muerta?

Juan Garoby, COO of Vista said: "The addition of a third drilling rig will provide us flexibility to accelerate our activity plan in Vaca Muerta. We forecast to put into production between four to eight wells by year-end, in addition to the 46 previously announced.

Could Vista electrify Vaca Muerta drilling rigs?

In support of Vista's plan to reduce the carbon footprint of its Vaca Muerta operations, there is potential to electrify this equipment. Earlier this year, using Nabors provided technology, Vista electrified the first drilling rig in Vaca Muerta, Nabors PACE F24, which is entirely powered by renewable energy.

Does Nabors support the Vaca Muerta drilling surge?

Argentina: La Smart Evolution Est#225; Aqu#237;. Nabors has made significant efforts to support the drilling surge in the Vaca Muerta region, deploying multiple rigs to meet the increasing demand for drilling services.

How do you drill a Vaca Muerta well?

Drilling a Vaca Muerta well requires pad-capable rigs with walking or skidding systems as well as high-pressure (7,500 psi) mud pumps capable of removing cuttings in long laterals. It's no exaggeration to say the growth of this play is directly constrained by the number of high-specification rigs in the country.
