

Dual hole down-the-hole drill rig accessories HD

What is a down the hole drill?

For 40 years, we've built a strong legacy of high quality, made in the USA rock drilling hammers and bits for vertical, horizontal, and reverse circulation holes 3" to 50" inches (89 - 1283 mm) in diameter. When it comes to specialized drilling, Down the Hole (DTH) drills are at the forefront of efficiency and power.

What hammers are available for deep hole drilling?

Wide range of large diameter Down the hole (DTH) hammers for your Deep hole drilling. Drill King manufactures the widest range of high quality Down the hole (DTH) tooling. From hammers, bits, shock absorbers, hole openers to casing systems and (WAI) water hammers and hole openers.

What tools do you need to drill a hole?

From hammers, bits, shock absorbers, hole openers to casing systems and (WAI) water hammers and hole openers. Comprehensive range of DTH rock drilling tools for any tough environment. Cost effective drilling method for sample grade control and getting initial geological data.

What is a DTH drill?

When it comes to specialized drilling, Down the Hole (DTH) drills are at the forefront of efficiency and power. Manufactured by the best DTH manufacturer in the industry, these drills guarantee unmatched performance. Utilizing a down hole hammer to produce percussive blows directly to the DTH bits, the drilling process is both fast and effective.

Should you buy a DTH drill?

If you're looking for a drilling solution that offers speed, power, and precision, then DTH drills and their complementary parts are your best bet. With a reliable down hole hammer and high-quality DTH bits, you can tackle even the most challenging drilling conditions.

What DTH drilling tools do you offer?

We offer a complete range of DTH drilling tools including hammers, bits, pipes, adapters, breakout benches and grinding machines with consumables. The history of the down-the-hole hammer manufacturing goes back more than four decades. For the past 40 years and still today, our goal is to produce the best products for our customers.

An independent rotary top drive simultaneously handles a drill string equipped with a down-the-hole hammer, drag bit, or roller cone bit. Cuttings are typically evacuated with air, but ...

Discover the impact of Down the Hole Hammers (DTH hammers) in urban redevelopment projects. Learn

Dual hole down-the-hole drill rig accessories HD

how these specialized tools enable ...

PowerROC D60, a hydraulic down-the-hole drill rig, perfectly meets the needs of open-pit mines and quarries when it comes to drilling big holes. With the well ...

CENTER ROCK products boast a formidable range of down-the-hole (DTH) hammers, presenting a suite of drills and downhole bits spanning 3.5"- 48" ...

The high-torque rotator (up to 2340kgm or 16850 ft.lb torque) make it suitable for micropile and DTH drilling application. With the optional feature, "side swing device", the rig will have some ...

We are a US Manufacturer specializing in top quality DTH drilling equipment and accessories serving the construction foundation, mining and quarrying, oil and gas, geothermal, ...

Dual rotary drilling is used where unconsolidated formations (sand, gravel, boulders) make it difficult to drill a cased hole using conventional drilling techniques.

The independent rotary top drive simultaneously handles a drill string, which can be equipped with a down-the-hole hammer, tri-cone or drag bit. Cuttings are typically evacuated with air, but ...

We offer a complete range of down-the-hole products including hammers, bits, pipes, adapters and breakout benches. Read more and contact us here!

DTH drilling rig, short for Down-The-Hole drilling rig, is a cornerstone of modern drilling technology. Renowned for its efficiency, precision, and versatility, this equipment has ...

Drill pipes The dual wall pipe supplies air to the hammer through the annulus between the inner and outer pipe, and transports cuttings inside the inner tube for sampling.

Epiroc's drilling rigs offer a variety of feed lengths, positioning configurations, rock drills, and optional automated features for underground production drilling and ...

In the middle is a rod/auger holding plate to stop the drill string from turning or dropping down the hole. The top clamps can grip 2.5" OD pipe to 8.8" casing with a combined gripping force ...

HAMMERS

With the RH-series of DTH hammers, we offer one of the world's most complete down-the-hole drilling solutions. The offering covers hammer sizes from 3" to 8" inches, ...

Dual hole down-the-hole drill rig accessories HD

The RH560 DTH hammer is a robust and reliable addition to your mining and long-hole production drilling operations. It drills fast and lowers your drilling cost per hole.

Our line of accessories includes everything successful drilling operations require for overburden drilling including casing shoes, dual rotary shoes, diverters, split wipers, and more. Please ...

Epiroc is a one of the leading drill rig manufacturers in the world. We offer rock drilling machines and other equipment for many different applications. For ...

DTH drilling, also known as Down-the-Hole drilling, is a method used to drill boreholes into the earth's surface. This technique involves a hammer that is ...

We are a US Manufacturer specializing in top quality DTH drilling equipment and accessories serving the construction foundation, mining and quarrying, oil and ...

If you're looking for a drilling solution that offers speed, power, and precision, then DTH drills and their complementary parts are your best bet. With a reliable ...

Because Down-The-Hole hammers use a rapid percussive action to crush the rock they require much lower feed force (pull down) and rotation torque than ...

Shop Center Rock's premium rock drill bits and accessories. Your one-stop destination for durable, high-performance rock drilling solutions.

Reverse Circulation drilling utilizes dual wall drill rods made up of an outer rod and an inner tube. The inner tube is designed to provide a continuous path for the drill cutting to pass from the bit ...

When drilling the hole of diameter >250 mm, which the annular area between the drill pipe and inner surface of borehole is very big. If using ...

Down-the-hole drilling (DTH) essentially involves a drilling hammer at the bottom of a drill string. It relies on three elements for drilling holes: bit loading ...

For efficient Down-The-Hole (DTH) drilling, you need high performing drilling tools. Tools that increase your productivity and sustainability, while reducing your total operation cost and ...

Leading Manufacturer of Down-the-Hole (DTH) Drilling Equipment for Mining, Construction & Water Wells. Premium products at fair prices. Get a Quote Today!

Dual hole down-the-hole drill rig accessories HD

Two holes are built with hardened steel drill bushings for precise and accurate 1/2" (12.7mm) pocket holes. Dual-position fence allows the jig to align for new pocket hole drilling, ...

An independent rotary top-drive simultaneously handles a drill string equipped with a down-the-hole hammer, drag bit, or roller cone bit. Cuttings are typically ...

It operates seamlessly with the drill rig, channeling the air or fluid down through the drill string. The down hole hammer then transforms this energy into a ...
