

Engineering Drilling Rig gpj300

How deep can a rotary rig Drill?

Reverse Circulation Mud Rotary Rig is powered by single/double engine and rated to drill 18" to 60" Dia. hole 400 feet to 600 feet deep using the centrifugal pump. Deeper holes are possible with Air injection equipment. Our Rigs are ideal for DTH Drilling, Air Rotary Drilling, and Mud Rotary Drilling etc.

What is a gmr300 drill rig?

The GMR300 drill rig series is suitable to conduct operations in water depths up to 300m (water depth plus borehole depth), the GMR302 up to 360m using steel API drill pipe. The GMR300 series drill rig has the capability to recover high quality samples and record accurate in situ data in all soil types.

Can air injection drills drill deeper holes?

Deeper holes are possible with Air injection equipment. Our Rigs are ideal for DTH Drilling, Air Rotary Drilling, and Mud Rotary Drilling etc. Our Rigs are all hydraulic drills, with top drive head.

What is a gmr300 geotechnical site investigation?

The GMR300 series is ideally suited to performing large scale geotechnical site investigations typically required as part of offshore wind farm developments whilst also being a prime solution to complete high priority single boreholes or low volume scopes of work, typically required at short notice and to strict schedule constraints.

Does one drilling package design fit all?

Jelex, we understand that one drilling package design - one brand rig equipment - doesn't fit all. We will work with you on an individual basis to determine your unique rig design needs. We integrate the drilling and pipe handling equipment (drawworks, top drive, mud pumps, iron roughneck, catwalk, etc.) from your choice of equipment manufacturer.

What is a multi-environmental drilling rig?

We design and build multi-environmental drilling land rigs, for conventional and unconventional petroleum resources, which can operate in residential/urban areas, National Parks / Reserves, or any protected environment during animal migration seasons. The Drilling Control System (DCS) is at the heart of your drilling rig operations.

17 hours ago; The puppy fell into the bottle, and the engineering car drilling rig came to help, enlightenment early education children's educational animation, children's animation, puzzle animation, Wangwang ...
