Does TMG make rotary drill heads?

TMG Manufactures a line of 4-speed gearbox drill heads for geotechnical, water well, micropile and rotary drill rigs. These rotary drilling heads can be adapted to almost all models of soil drilling machines, and feature a spring loaded floating head, 4 speeds of drilling, and a built in wet swivel system for drilling with mud or water.

What are Tei rock drills rotary heads?

TEI Rock Drills manufactures robust hydraulic rotary heads that are designed for smooth operation and simple maintenance in rotary drilling applications such as soil nailing and micropile operations. Our RDS heads go through the same bench testing procedure prior to delivery as our patented hydraulic drifters.

What is a ZP series drilling rig rotary table?

The ZP series drilling rig rotary table, designed and manufactured according to API Spec 7K, is essential for rotating drill strings and bearing the weight of the drill pipe. It is available in multiple models to suit various drilling needs. The ZP series rotary table is vital in oil, gas, and geothermal drilling operations.

What is a highdrilling rotary table?

These tables are specially designed to withstand high torques, making them an ideal choice for demanding drilling applications. Due to their reliable operation and easy maintenance, we use Highdrilling rotary tables on all of our land drilling rigs and mobile drilling rigs that don't opt for a top drive.
