

Face borer drilling rigs

With the introduction of higher capacity pumps and horizontal direction drilling (HDD) rigs with higher drilling fluid flow capacities, the downhole mud motor often is the tool of choice ...

This hydraulic tunneling drilling rig is a face drilling rig designed with increased working height, suitable for large hard rock mines and tunnels with cross sections of 12-44m²;

The Boomer S10 face drilling rig is engineered for demanding mining and tunneling applications. Its highly durable design ensures precise positioning, rapid drilling cycles and reliable ...

Mincon range of small crawler drilling rigs with powerpacks and compact excavator mounted Drilling Attachments are the solution to restricted access ...

The thin red circular contour line in the middle of the map indicates the top of the oil reservoir. Because gas floats above oil, the thin red contour line marks the ...

Front Face Jumbos Troidon 66 Front Face Jumbo Two booms with parallel holding For use in tunneling development of up to 45m²; Diesel propelled ...

Epiroc's rugged face drilling rigs are built for blast hole drilling in underground mining and tunneling. Choose your model of jumbo here and read more!

Cat Rotary Blasthole Drill Rigs offer substantial technology, efficiency and productivity improvements to efficiently reach your mining targeted productivity rates. Learn more about ...

X-Borer warmly welcomes and sincerely invites you to schedule your in-person consultation with our chief engineer, who has over 20 years of experience in the piling industry during Bauma ...

Sonic is an advanced form of drilling which employs the use of high-frequency, resonant energy generated inside the Sonic head to advance a core barrel or casing into ...

Drilling Rigs Built For Depth When you evaluate drilling rigs, you're looking for depth. You want a drill rig that performs and looks beyond the surface to help ...

FOCOR self-propelled drilling rigs are mainly used to drill blast holes for tunneling constructions in mining, metallurgy, water and electricity, railway, highway engineering, etc. The drill jumbos ...

Boomer L1 and L2 are modern hydraulic face drilling rigs suitable for medium sized drifts and tunnels with

Face borer drilling rigs

cross sections up to 64 m². The rigs are equipped with a direct control system ...

X-Borer () specializes in providing high-quality small drilling rig, including small rotary drilling rig, micro piling machine, mini piling rig, ...

Epiroc's range of raise boring machines includes models for both conventional raise and boxhole boring as well as down reaming and it covers diameters ...

A compact, mobile drill rig designed for quick setup and ease of moving site to site. Integrated positioner and turntable enables drilling at all angles.

Herrenknecht Raise Boring Rigs are the solution for smart and safe shaft boring. Whether large ventilation shafts in hard rock formations or underground connection shafts, the ...

The Boomer E3 (model names XE3 and WE3) is a hydraulic face drilling rigs for medium to large drifts and tunnels with cross sections up to 198 m². Even in the toughest rock conditions, ...

Face drill rigs boost efficiency in underground projects. Learn how these rigs work, where they're used, and top options in the USA for 2025.

Discover Borr Drilling's fleet, showcasing our global presence with advanced jackup rigs designed for safety and efficiency in diverse markets.

We engineer an extensive range of underground drill rigs for mining development and production. Available in a variety of feed lengths, boom configurations and size classes, our underground ...

The face drilling rigs are designed for tunnelling and mining applications. With their booms these compact drilling jumbos are capable for various drilling applications, e.g. face drilling, cross-cut ...

As a leading supplier of rock excavation equipment for more than 145 years, we have gained considerable experience and knowledge of mining techniques ...

Different from the conventional drilling machines, the cuttings usually fall down to the lower level by gravity during raise boring, which is the common characteristic for all types ...

Face borer drilling rigs
