

Face drilling rig

Tunnel Manager software Rig hydraulically prepared for ABC Total Boom equipped for Measure While Drilling, MWD Measure While Drilling logging and analyzing drill data Bolt view Atlas ...

Our dedicated team is here to provide you with the answers and support you need. Whether you're looking for more information about our products and ...

The durable and robust Boomer M1D and M2D rigs are hydraulically controlled mining and tunneling face drilling rigs. With the strong BUT 36 S boom, these rigs are built with safety and ...

For power and productivity Face drill rigs in the Boomer E3 and E4 series have extensive coverage areas of up to 205 m², making them the perfect choice for construction projects. ...

Mine Master drill rigs (also known as underground drill rigs, master rigs or face drilling rigs) are primarily utilized in underground mines (hard rock & soft ...

The "All Star" two-boom rig Boomer 282 is a world popular face drilling rig installed with two robust BUT booms and available with a variety of rock drills. Stable and highly efficient performance ...

The Atlas Copco Boomer M2 D face drilling rig is suitable for use in mine production and small to medium sized tunnels. A reliable and robust direct control system (DCS) is present in the rig.

Face Drill Rig FOCOR self-propelled drilling rigs are mainly used to drill blast holes for tunneling constructions in mining, metallurgy, water and electricity, railway, highway engineering, etc. ...

Drill Setup : A drill rig is positioned at the designated spot on the rock face. This rig can vary from handheld drills for smaller operations to large mechanized units capable of ...

Face drilling rig is the rock drilling equipment traveled automatically, which are used for supporting, advancing, and moving one or more rock drills for the excavation of horizontal ...

Boomer S1 L is a low-profile hydraulic face drilling rig suitable for small drifts and tunnels with cross sections up to 29 m². The BUT 28 boom allows for fast, ...

The face drilling rigs are designed for tunnelling and mining applications. With their booms these compact drilling jumbos are capable for various drilling applications, e.g. face drilling, cross-cut ...

The Boomer M2 C face drilling rig is a modern hydraulic face drilling rig which is provided with COP rock

Face drilling rig

drills and two robust BUT 35SL booms.

The Boomer S10 face drilling rig is engineered for demanding mining and tunneling applications. Its highly durable design ensures precise positioning, rapid drilling cycles and reliable ...

What Is a Face Drill Rig? A face drill rig is a transportation machine that works underground in tunneling and mining applications and that drills blast holes into the face of rock.

The Boomer E3 (model names XE3 and WE3) is a hydraulic face drilling rigs for medium to large drifts and tunnels with cross sections up to 198 m²;. Even in the toughest rock conditions, ...

Boomer L1 and L2 are modern hydraulic face drilling rigs suitable for medium sized drifts and tunnels with cross sections up to 64 m². The rigs are equipped with a direct control system ...

Siton face drilling rigs are used for blast hole drilling in underground mining and tunneling. So our underground drill rigs are widely applied in mining, metallurgy, water and electricity, railway, ...

Epiroc's rugged face drilling rigs are built for blast hole drilling in underground mining and tunneling. Choose your model of jumbo here and read more!

ENKEC is a professional R& D and manufacturing company for underground mining equipment. Our main products of drill jumbos includes wheeled face ...

This hydraulic tunneling drilling rig is a face drilling rig designed with increased working height, suitable for large hard rock mines and tunnels with cross sections of 12-44m²;.

2023 was a busy year for both drill rig manufacturers and contract drillers alike, and this trend looks set to continue as favorable commodity prices and shortages of skilled labor ...

FOCOR self-propelled drilling rigs are mainly used to drill blast holes for tunneling constructions in mining, metallurgy, water and electricity, railway, highway engineering, etc. The drill jumbos ...

The rig is one of the largest dieselhydraulic face-drilling rigs on the market, with a coverage area of up to 95 m². This is a 38% improvement over its predecessor, the Boomer ...

Face Drill Rigs Z20 Multifunctional Double Face Drilling Jumbo for Full-section Tunnel DW1-24 Single-boom Face Drill Rigs for Underground Narrow Tunnel DT1-14 Crawler Hydraulic Face ...

Robust face drill Equipped with two powerful BUT S booms, Boomer S2 is the most productive drill rig in its class. This compact face drilling rig is smarter and tougher in small drifts. ...

Face drilling rig

Boomer M20 - the world's first face drill rig with internal hydraulics. With protected hydraulics, sensors and cables, Epiroc's new Boomer M20 is designed and built to minimize unplanned ...
