

Face drilling rigs wholesaler

What is a hydraulic face drilling rig?

Hydraulic face drilling rigs for medium to large drifts and tunnels. Boomer L is a hydraulic face drilling rig for medium sized drifts and tunnels. Low-profile hydraulic face drilling rig suitable for small drifts and tunnels. Boomer S2 is a 2-boom Face drilling rig ideal for mine development and smaller construction tunnels.

What is a jumbo drill rig?

Epiroc's rugged face drilling rigs are built for blast hole drilling in underground mining and tunneling. These jumbo drill rigs can be equipped with up to four booms, covering cross sections from 6 to 206 m². Designed to be used in drill-and-blast operations.

How does a drill rig work?

The rig operator downloads the tunnel contour to the drill rig together with a drill rule file, and the drill rig generates its own drill plans. This eliminates the need for going back and forth with drill plans between the office and the drill rig.

How many booms can a jumbo drill rig have?

These jumbo drill rigs can be equipped with up to four booms, covering cross sections from 6 to 206 m². Designed to be used in drill-and-blast operations. The underground jumbo drill rigs from Epiroc are used for blast hole drilling in underground mining and tunneling.

Why should you buy a drill rig in Japan?

Standard features like dual damping drills lengthen the lifetime of consumables, while the fast boom movement with great visibility maximize uptime. Disaster preparation is a major issue in Japan, where earthquakes, erupting volcanoes, typhoons and landslides can cause considerable problems.

What is a hydraulic tunneling drilling rig?

This hydraulic tunneling drilling rig features a telescopic feed beam, it is suitable for drilling hard rock mines with cross sections of 12-35m². This hydraulic tunneling drilling rig is a face drilling rig designed with increased working height, suitable for large hard rock mines and tunnels with cross sections of 12-44m².

Front Face Jumbos Troidon 66 Front Face Jumbo Front face jumbo of two booms for big sections For use in tunneling development of up to 47m²; Montabert ...

Our face drill rig enables operators to have a smooth drilling experience. At the same time, safety and stability are ensured.

The Boomer S10 face drilling rig is engineered for demanding mining and tunneling applications. Its highly durable design ensures precise positioning, rapid drilling cycles and reliable ...

Face drilling rigs wholesaler

Amalgamated Mining and Tunnelling offers a wide selection of jumbo Face Drilling Rigs, ideal for a variety of applications. With automation features available, we design our rigs to withstand ...

Face drill rigs supplier from China, we are expert manufacturer with years of experience. For customers from around the globe, we support them with high high quality Face drill rigs ...

The Boomer E3 (model names XE3 and WE3) is a hydraulic face drilling rigs for medium to large drifts and tunnels with cross sections up to 198 m². Even in the toughest rock conditions, ...

FK80-2BCDL Twin Boom Face Drill Rig FK80-2BCDL are modern hydraulic face drilling rigs suitable for medium sized drifts and tunnels with cross sections up to 64 m². The rigs are ...

Find underground face drill from wholesalers in China. Shop for mine drilling rig from Alibaba and enjoy favorable price points for ground excavators.

FOCOR self-propelled drilling rigs are mainly used to drill blast holes for tunneling constructions in mining, metallurgy, water and electricity, railway, highway engineering, etc. The drill jumbos ...

The durable and robust Boomer M1D and M2D rigs are hydraulically controlled mining and tunneling face drilling rigs. With the strong BUT 36 S boom, these rigs are built with safety and ...
