

## Fire rescue rock drill operation video

What are the common firefighter rescue drills?

The common firefighter rescue drills include the Denver Drill, the Nance Drill, and the Pittsburgh Drill. These training drills are named after firefighters who were killed in the line of duty (LODD).

How do you close a firefighter self-rescue modal?

This modal can be closed by pressing the Escape key or activating the close button. This is the first of a two-lesson series on firefighter self-rescue drills. Basement fires or falling into a basement are every firefighter's nightmare. This lesson demonstrates different ways of "bailing up" out of a basement using a Halligan tool and webbing.

Can an improvised barrier help a high-rise fire?

Mark Gregory and members of PL Vulcan Training demonstrate how to overcome an improvised barrier that chains two protesters together. John Ceriello discusses a device developed primarily for high-rise fires that can help an interior team more easily attack the fire.
