Why should you choose a fixed speed air compressor?

Less power spikes- don't activate the air compressor motor when the highest currents are present. Up to 35% less energy is needed than with a normal fixed speed compressor, making it more energy efficient. Precise electrical control allows for the slackening, stopping, or acceleration of motor speeds.

Direct drive compressor is more efficient; less power lost during transfer from the motor to the air-end. The direct-drive compressors have low components, and it's suitable for heavy-duty ...
