

# Fully hydraulic and electronically controlled rock drills

Hydraulic rock drills offer high drilling speeds with minimal vibration, ensuring effective penetration in hard rock or reinforced concrete. They are lightweight ...

Description Hydraulic Rock Drills (TD Series) The tunnel application STD11E is fully equipped with extendable boom, high capacity rock drill, water flushing system and operator's safety cabin as ...

Epiroc rock drills are core components to your drilling equipment. To ensure the safest and most efficient operation of your equipment, we offer a full line of ...

Hardrock Hydraulic Drilling Rig is fully hydraulic control drilling machine. It can be used as Well Drilling Rig and Blast Hole Drills. There is independent control ...

What is the Cat Rock Drill Advantage? Cat Rock Drills are power matched to the application for energy-efficient drilling. They are simple and durable, with extended service intervals, and ...

What is Integrated Digital Fully Hydraulic Core Drilling Rig? The integrated digital fully hydraulic core drilling rig is a device that integrates power machine, drilling tower and drilling rig. It uses ...

It combines a rock drill, rock splitter, and excavator perfectly It adopts pin-shaft installation, so it is easy to replace other equipment It can be rotated 360°; ...

Drill Controls Simple, full flow hydraulic valves eliminate the need for pilot controls or electric valves. All the hydraulic power that is needed travels from valve to function. This simple design ...

Description Hydraulic Rock Drills (TD Series) The tunnel application STD11E is fully equipped with extendable boom, high capacity rock drill, water flushing ...

Product Introduction Fully hydraulic portable rock core drilling rig has introduced Canadian portable drilling rig technology, with original core components ...

Marini designs and produces certified hydraulic rock drill attachments ready to be installed on mini, midi and big self-propelled machines. The drilling equipment ...

Canyon Equipment specializes in rock drilling equipment for all forms of civil construction, quarries, open pit mining and underground exploration. We supply equipment to perform ...

# Fully hydraulic and electronically controlled rock drills

Designed for surface mining, quarrying, and large-scale construction, these drills feature electric/hydraulic joystick controls, allowing operators to manage ...

**Hydraulic System:** The hydraulic system of a hydraulic rock drill is a critical component, and high-quality hydraulic components can be costly. Maintaining ...

The HYCON HRD28X hydraulic rock drill is a high performing handheld rock drill designed for the toughest drilling applications in granite and concrete up to 6 meters of drilling depths.

The DMiningwell JY-1000 Fully Hydraulic Core Drilling Rig is mainly applicable to the drilling of solid deposits, can also be used for engineering geology, shallow oil, natural gas, groundwater ...

Rock Drills Sunward America's Drills have a unique advantage in complete machine stability, control technology, steel wire rope consumption, and other performance indicators, its ...

Integrated with the excavator, our hydraulic rock drill and splitter breaks hard rocks quickly. With high drilling speed and large splitting force, it is a must ...

The MR-5 ID is a hydraulic drilling unit for using 2? or 3? down-the-hole hammer, or rock drill weighing 58 kg with separate right and left rotation, provided with a hydraulic power pack ...

**Video Performance Characteristics** The original made in USA powerful Cummins engine is selected to integrate with the core technology of TYSIM in electronic ...

**Product Features Product Advantages** Strong power: high-power turbocharged engine, stable output, suitable for long-time continuous operation.Full ...

**Warranty 1 Year Core Components** Engine, hydraulic pump, hydraulic valve, electronic control system **Key Selling Points** High Productivity/ Long lifetime/ Competitive Price/ Energy-saving ...

The full hydraulic rock core drilling rig is a widely used equipment that offers significant advantages in various applications. 1. Versatile Application: It is ...

**Slope Stabilization Canyon Equipment** offers hydraulic and pneumatic rock drilling equipment for slope stabilization projects in remote access and is Heli ...

The MR-5 ID is a hydraulic drilling unit for using 2? or 3? down-the-hole hammer, or rock drill weighing 58 kg with separate right and left rotation, provided with ...

It can be rotated 360 &#176;, the splitting direction can be controlled at will. It is a fully hydraulic drilling

## Fully hydraulic and electronically controlled rock drills

machine with fast drilling efficiency. 1m/min. It can work at multiple angles of vertical, inclined ...

Investing in a YG hydraulic drilling rig machine means choosing power, precision, and durability. Whether for construction, mining, or industrial drilling, these ...
