

Gemsa drill rigs

Gemsa's wide range of drill rig components (like drill head, rod spinner, cyclone, splitter) are suitable for your old model Gemsa rig or with modification for your other brand rigs.

HPV drill rigs are designed for high operational efficiency with easy handling and mostly suitable for blast-hole production drilling in quarries, open-pit mining and construction work.

Marmorok 90 is Gemsa's DTH drill rig, is designed especially for marble quarries. Drilling hole for marble wire cutting operations. It is based on proven and tried technology with simple design, ...

GEMEX MP 850 is an extremely powerful Gemsa's mid-range mineral exploration drilling rig, can be used in a wide range of drilling operations such as mineral exploration, directional drilling ...

Enjoy Drilling RCM 30, available on a crawler chassis, extremely powerful Gemsa's mid-range reverse circulation drilling rig and can be used for other down-the-hole drilling applications ...

Inovative range of underground rigs. Machines design result in high productivity with increased performance on drilling, reliable, long service life and low total ...

From the precision of our production process in factory to the performance of our drill rigs and equipment in field, this gallery showcases the scope of Gemsa's capabilities. Discover behind ...

Ready to drill fast ! The RCM 30-A is Gemsa's mid-range drill rig, is designed specifically for reverse circulation. Accurate mineral samples can be taken at ...

Gemsa and Gemsa's Partners wide range products is suited for a variety of applications, from underground to surface, including mineral exploration, mining, water well and hole drill for ...

Gemsa model HPV drill rigs are designed for high operational efficiency with easy handling and mostly suitable for blast-hole production drilling in quarries, open-pit mining and construction ...

Gemsa's new diamond core drill RD15 designed for alternative option to our current top drive core drill rigs. This surface diamond coring drill rig has a new ...

Enjoy Drilling RCM 30, available on a crawler chassis, extremely powerful Gemsa's mid-range reverse circulation drilling rig and can be used for other ...

Explore Gemsa's advanced surface and underground drill rigs, designed for rock blasting projects, marble,

Gemsa drill rigs

granite, and limestone quarries, as well as mineral exploration, mining, tunneling, and ...

They expect the rig capable of various drilling techniques in exploration, such as wireline / conventional coring and reverse circulation drilling. Our wide range of heavy-duty multipurpose ...

Gemsa and Gemsa's Partners wide range products is suited for a variety of applications, from underground to surface, including mineral exploration, ...

Gemsa's wide range of drill rig components (like drill head, rod spinner, cyclone, splitter) are suitable for your old model Gemsa rig or with modification for your ...

GEMEX MP1500HOA is an extremely powerful multipurpose Gemsa's deep hole mineral exploration drilling rig and can be used in a wide range of drilling operations such as mineral ...

Drills 193 mm holes and the included equipment includes a drill bit and 120 meters of rods for immediate use. The machine is equipped with a 4-cylinder Deutz engine that only has 500 ...

It is a versatile drill in its range and available in alternative configuration options to suit contractors operations and environmental demands. All major ...

Power to Success GEMEX MP 850 is an extremely powerful Gemsa's mid-range mineral exploration drilling rig, can be used in a wide range of drilling operations such as mineral ...

Gemsa's well known RC model GEMEX-OA renamed as RCM -A Operator and machine become a winning team. Reliability is essential when drilling in tough locations. Your new work mates ...

Gemsa's and Partners wide range of drill rig components (like drill head, rod spinner, cyclone, splitter) are suitable for your old model Gemsa rig or with modification for your other brand rigs !

* Rig can work with electric or diesel ! * Good choice if no need for onboard air compressor. Quick access to main hydraulics and power packs make maintenance much more simple. * Vertical ...

Gemsa horizontal drilling rigs New and used Trusted sellers Currently in stock Quality construction equipment for sale at Machineryline USA

International Drilling Services, LTD (BVI) is the sole world wide agent and main designer of the GEMEX mineral exploration range of rigs, in partnership with GEMSA GENERAL MAKINA, a ...

Thanks to onboard air compressor and booster access, these are all make the rig as a compact unit and can meet requirements in an impressive range of applications such as mineral ...

Gemsa drill rigs

Explore Gemsa's advanced surface and underground drill rigs, designed for rock blasting projects, marble, granite, and limestone quarries, as well as mineral ...

In 1987, Gemsa's first factory build in Istanbul, Hadimköy. Production line and product range increased day by day. Now we move our production line to our new factory ...

Gemsa's and Partners wide range of drill rig components (like drill head, rod spinner, cyclone, splitter) are suitable for your old model Gemsa rig or with modification for your other brand rigs ...

More details -- Gemsa 55S drilling rig Chassis: See pictures Belt width: Approx. 40 cm Services: Performed both by the owner himself and at the workshop running hours: Approx. 10,000 ...

Explore the heart of our operations through a curated collection of photos and videos. From the precision of our production process in factory to the performance of our drill rigs and ...
