

Geotechnical drilling rigs australia

What types of drilling rigs are offered?

Rig Sales Australia offers a wide selection of new and used drilling rigs for sale, including geotechnical, sonic, exploration, blasthole, auger, underground, multipurpose, diamond, and RC rigs.

How many Geotech drilling rigs are there?

Operating from company depots in Brisbane, Sydney, and Townsville, our fleet of 18 state-of-the-art geotechnical drilling rigs designed for versatility--equally capable of accessing restricted metropolitan sites and remote regional locations. A Geotech Drilling Contractor with all the toys.

What is RC drilling rig used for?

RC drilling rigs are used for various purposes. Rig Sales Australia offers a wide selection of new and used drilling rigs for sale, including RC rigs, as well as geotechnical, sonic, exploration, blasthole, auger, underground, multipurpose, and diamond rigs.

Who can use geotechnical drilling services?

We regularly provide geotechnical drilling services for utility, construction, mining, gas and consulting companies.

What types of drilling can a 7822 rig do?

Our 7822 is the only rig in Australia capable of all forms of drilling (excluding sonic) via the unique system that allows for Direct Push (2 sizes), Diamond coring (HQ & PQ), Mud Rotary, Auger (Solid and Hollow), SPT, RAB, Rotary Percussion and RC.

How many Geoprobe tracked drill rigs can I run?

Each rig has its own dedicated setup, which means we can simultaneously run 15 rigs. These Geoprobe tracked drill rigs are capable of drilling bores for installing 50mm or 100mm monitoring wells, collecting soil or groundwater samples using Push Tube Sampling Systems or doing Geotech soil bores with the DT100 auto hammer.
