

German integrated down-the-hole drill rig

The KT15 integrated down the hole drill rig for open use can drilling vertical, inclined and horizontal holes, mainly used for open-pit mine, stonework blast holes and pre-splitting holes. It is driven ...

The Integrated DTH drill rig ZEGA D435 can drill up to 28m deep with holes from 790 - 138mm. Ideal for various projects, it offers stable performance and is a reliable choice for DTH drilling.

Our KT15 integrated surface DTH drilling rig is designed by drawing inspiration from previous models. It can satisfy most needs of operators by providing a ...

The KT11 integrated down the hole drill rig is driven by a high power Cummins China stage III diesel engine with a two-terminal output that can drive the ...

The KT5C Integrated down the hole drill rig for open use is an advanced drilling device integrating the down the hole drilling system and screw air compressor ...

KT9C Integrated DTH Drilling Rig The KT9C integrated open-pit down-the-hole drilling rig is an advanced drilling equipment designed for blasting and pre ...

A high air pressure screw rod with our intellectual property is mounted on the machine. KT5C Integrated Down the hole Drill Rig for Open Use The KT5C ...

Leopard(TM) DI550 diesel-powered, down-the-hole (DTH) drill has enhanced mobility, a smaller footprint and can serve multiple sites. Designed for DTH ...

An Integrated DTH (Down-the-Hole) Drill Rig is an advanced drilling system designed for efficient and precise drilling in hard rock formations. It combines ...

KT15C integrated down-the-hole drill rig is capable of drilling vertical, inclined and horizontal holes, mainly used for open-pit mine, stonework blast holes and pre ...

The KT9D integrated down the hole drill rig for open use is an advanced drilling device integrating the hole drilling system and screw air compressor system. It ...

The integrated down the hole drill rig is a self-propelled rock drilling equipment that incorporates the power system (usually a diesel engine and an air ...

Multifunctional Drilling Rig is a high-performance, multi-purpose machine designed to meet demanding

German integrated down-the-hole drill rig

drilling needs across various terrains and applications. Capable of operating with ...

The KT15integrated down the hole drill rig for open use can drilling vertical, inclined and horizontal holes, mainly used for open-pit mine, stonework blast ...

KT15C integrated down the hole drill rig for open use can drilling vertical, inclined and horizontal holes, mainly used for open-pit mine, stonework blast holes and pre-splitting holes.

KT12 Integrated Down the hole Drill Rig The KT12 integrated down the hole drill rig is driven by a Cummins China stage III diesel engine and the two-terminal output can drive the screw ...

The KT9D integrated down the hole drill rig rock drilling rig The KT9D integrated down the hole drill rig for open use is an advanced drilling device integrating ...

KT11 integrated surface DTH drilling rig is using Cummins three diesel engines as a single power, by both ends of the output at the same time to drive the screw ...

The ZEGA D535T integrated down-hole drilling rig is suitable for blasting and drilling various medium hard rocks in open-pit quarries, small ...

Whether used for geological exploration, infrastructure development, or foundation construction, this drilling rig, combined with a DEHAHA diesel screw air compressor, offers a complete, ...

We're professional integrated down the hole drill rigs manufacturers and suppliers in China, specialized in providing high quality products and service. We ...

Leopard(TM) DI650i is an intelligent diesel-powered, self-contained, crawler-mounted down-the-hole drill rig built for demanding high-capacity production drilling applications in surface mining and ...

??????? Integrated Down The Hole Drill Rigs ???,??Compact of bench blast size but ...

The KT15C integrated down the hole drill rig for open use can drilling vertical, inclined and horizontal holes, mainly used for open-pit mine,stonework blast ...

1.Product DescriptionXDH-110/XDD-110 hydraulic DTH drilling rig is widely applied to road, national defence, water conservancy, open-pit mine small blast-hole...

The KT12 integrated down the hole drill rig is driven by a Cummins China stage III diesel engine and the two-terminal output can drive the screw compression system and hydraulic ...

German integrated down-the-hole drill rig

The KT20 integrated down the hole drill rig for open use is a new drilling device developed by our company after years of development and production of ...

The KT9C integrated down the hole drill rig for open use is an advanced drilling device integrating the down the hole drilling system and screw air compressor ...

The KT9D integrated down the hole drill rig for open use is an advanced drilling device integrating the hole drilling system and screw air compressor system. It is capable of drilling ...

KT5D Integrated Down The Hole Drill Rig For Open Use can drill vertical, inclined and horizontal holes, used for drilling and pre-splitting holes in open pit mines and stone works, etc.

The KT12 integrated down the hole drill rig for open use can drill vertical, inclined and horizontal holes, mainly used for open-pit mine stone work blast holes and pre-splitting holes. It is driven by ...
