What makes Berg Kompressoren a good brand?

BERG Kompressoren has reached a new milestone: Being a German company certified to ISO 8573-1 CLASS 0, setting the standard for air purity. Every machine is tested to ensure that it meets specifications, complete safety, and no surprises. ZX oil-free compressors are really easy to use and have no maintenance issues.

Are old air compressors still competitive?

Old air compressor brands with a long history may remain competitive in the current market due to their reputation for quality and durability. Before purchasing, it's important to evaluate the present market presence of these old brands. Larger companies may have acquired some or no longer operate independently.

Why are old air compressor brands important?

Old air compressor brands have played a significant role in the development of the industry. While newer, more technologically advanced brands may dominate the market today, it is important to acknowledge and appreciate the contributions of these older brands.

Who invented the air compressor?

Ans: The invention of the first air compressor is credited to George Medhurst, a French engineer in the late 18th century. Medhurst's design used a large wooden wheel and bellows to compress air.

How do I identify an old air compressor?

If only the manufacturer name is present, do a Google search of the brand compressors. You can also look along all sides of the air compressor for a patent number, which you can search up.
