

Gulf of Mexico drilling rig count

How many oil rigs have been drilled in the Gulf of Mexico?

There have been nearly 90,000 offshore wells drilled in the GOM to date. The basin recently averaged ~40 Gulf of Mexico oil wells per quarter (Figure 3) and rig count increase to 20- (Figure 4). FIGURE 4 |Offshore Oil Rigs Through Time in the U.S. Gulf of Mexico Oil Production Area

How many GOM rigs are there in the Gulf of Mexico?

Swimming upstream against the Federal policy current, Gulf of Mexico drilling is demonstrating impressive forward progress. Baker Hughes reports 22 active GoM rigs on 3/15/2024, an increase of 3 from the previous week. Glancing at the charts, this appears to be the highest GoM rig count since Nov. 2019, and is double the recent low of 11 in 2022.

Is the Gulf of Mexico a good oil rig?

Gulf of Mexico oil production has been challenging but steady over the years. With its excellent drilling history, successful oil wells and an expanding rig count, the GOM Basin is one of the richest historical hydrocarbon basins in the United States.

How deep is oil & gas exploration in the Gulf of America?

The deepwater portion of Gulf of America has shown a continued increase in oil and gas exploration and development. The majority of exploration activity is currently taking place in water depths greater than 500 feet. BSEE engineers within each of the Region's District Offices review and approve well operations permits.

How many GOM rigs are there?

Baker Hughes reports 22 active GoM rigs on 3/15/2024, an increase of 3 from the previous week. Glancing at the charts, this appears to be the highest GoM rig count since Nov. 2019, and is double the recent low of 11 in 2022. It's unclear whether Baker Hughes is including the CCS drilling operation offshore Texas.

Does Baker Hughes have a CCS drilling operation offshore Texas?

It's unclear whether Baker Hughes is including the CCS drilling operation offshore Texas. If so, the actual oil and gas rig count is 21 rather than 22. Baker Hughes also reports 1 active rig offshore California (decommissioning?) and 1 active rig offshore Alaska (Endicott or Northstar?)
