

Heavy duty rock drill

What are the different types of rock drilling?

Types of Drills: The landscape of rock drilling is vast, with rotary, percussion, diamond, and masonry drills catering to different needs. Choosing the right type can greatly affect not just efficiency but also the quality of the drilling performed.

What is a Rd 22U Rock Drill?

RD 22U is a straight forward hydraulic rock drill for underground production drilling applications. Epiroc rock drills are core components to your drilling equipment. To ensure the safest and most efficient operation of your equipment, we offer a full line of support specific to these technologically advanced and developed components.

Do you need personal protective equipment for rock drilling?

Every drill operator knows that the best way to avoid injury is to be equipped with the proper gear. The right protective equipment acts as the first line of defense against hazards that are part of the rock drilling landscape. Wearing personal protective equipment (PPE) isn't simply recommended; it's essential. The critical items include:

Which power source should I choose for my Rock Drill?

Choosing the power source for your rock drill can drastically affect performance and usability. Electric drills are favored for their consistent power output and ease of use, especially in confined areas. They eliminate exhaust fumes, making them suitable for indoor drilling tasks.

How do I choose the best apt Rock Drill?

Learn how to select the ideal APT rock drill for your specific tasks, covering key factors to consider for efficiency and optimal performance on the job. Drill through rock with ease. Our 9-60 lb Rock Drills hit 2,100-3,400 BPM, great for anchor holes, blasting prep, or tough surfaces. Use wet or dry with the APT valve for total jobsite control.

What type of drill is best for a rock piercing?

Rotary Drills: Best for penetrating hard rock, these utilize a rotating motion combined with some form of hammering. Impact Drills: These deliver rapid blows to break the rock as they drill, making them effective for tougher materials. Percussive Drills: Ideal for softer rocks, they operate with a percussion mechanism without the rotary function.

“ROCKDRILL 5000” This Drill Rig is a heavy duty machine but very simple and easy to operate, can be either TRUCK or TRACK mounted depending on the ...
