

Helicopter portable drilling rig

CARE Industries has designed Heli-Portable drilling packages that are designed and fabricated with the rig crew in mind; fully modular construction with the ease of assembly and customized ...

LF(TM)70 Surface Coring Drill Rig Mobility The LF(TM)70 modular design consists of seven sections that are heliportable for reaching remote locations. This drill reduces downtime when ...

Geotech operates a fleet of heli-portable and skid mount drill rigs. Designed to complete the most remote of drilling programs, our heli-portable drill division is ...

Lightweight & Heli-portable Rigs Our company specialises in working in remote areas where access is often limited to helicopter lifts leaving us completely ...

With available skid, shack and track carrier mounted configurations, and the versatile Discovery II is built for exploration diamond drilling. Check out the Discovery II product page for more ...

The versatile Atlas Copco CS 1000 heliportable Diamond core drilling units are designed for remote helicopter projects or can be transported by truck or hand ...

Safety - Efficiency -Trust The EDM1500HP Heli Portable Drill rig has been designed as a high capacity drill, to operate in remote and difficult locations only accessible by helicopter. The ...

Walker Drilling handles all types of Geotechnical, Environmental and Exploration and drilling jobs in all kinds of tough and difficult places. When you need quality work done on time and safely ...

Discovery II - Diamond Core Drill MPP's flagship diamond drill, the Discovery II was designed with safety, portability and production in mind. The rig is both ...

Helicopter Portable Equipment When you contract with Godbe Drilling, you get the benefit of all-terrain mobility and advanced technical exploration. We utilize ...

Marcotte Machining's new Mancore 600TA is a demountable, heli-portable exploration drill rig specifically designed for operations in hard-to-reach or difficult areas.

Still the quintessential Helicopter Fly-In Rig, the BUSHMASTER is a modular, all hydraulic core drill rig designed for quick breakdown and setup in the most ...

By using HDS for your remote area helicopter portable drilling programs, we will provide the complete

Helicopter portable drilling rig

package. Some of the benefits in consolidating contracts include: Efficiencies in ...

Our customized geotechnical exploration drills can be transported by track rig, truck, helicopter, or crane. They are able to access confined spaces, steep slopes, and environmentally sensitive ...

Heliportable Drilling involves transporting a disassembled drill rig, by helicopter, to a precise (often difficult to access) location. Our ground crew then assemble ...

Shock Auger Helicopter-portable, low-impact drill rig designed for overburden exploration with minimal environmental damage. Shock Auger is a new drill system built for maximum ...

Diamond core drills for mineral exploration and mining industry. Available in surface and underground configurations. Track mounted and helicopter portable.

The A5 is a highly capable helicopter-portable drill rig with a depth capacity of 1,300 metres using N-size tooling. Designed for both power and portability, it is mounted on two compact skids, ...

DA Smith's heliportable Longyear HC-150 diamond core drill is designed with modular components that can be disassembled into lightweight components ...

The A5 is a highly capable helicopter-portable drill rig with a depth capacity of 1,300 metres using N-size tooling. Designed for both power and portability, it ...

25 years of vast experience and local knowledge has proven that, PT Maxidrill Indonesia, can supply cost effective drilling solutions to complete projects, on time and budget while ...
