

Heze screw air compressor recycling phone number

Who is screw compressor technologies?

Screw Compressor Technologies (SCT) located in Buffalo, New York has been in the air end rebuilding business since 1980. SCT will rebuild and restore any air and gas compressing unit to their Original Equipment Manufacturer (OEM) specifications.

How do you dispose of an air compressor?

To dispose of an air compressor, first separate its components. Most accessories like the pressure switch, regulator, drain tank valve, and feet/stand can go in your regular trash. The metals, including the motor, can be sold for scrap.

Can you recycle an air compressor tank?

While the metals of an air compressor, including the motor, can be sold for scrap, the tank itself can be recycled. However, you will need to call ahead to a scrap metal recycler to ensure they can accept it. Alternatively, there are DIY projects that can be done with an air compressor tank if you have time and want to reuse it.

What should you do before recycling an air compressor?

Before recycling an air compressor, release all pressure from the tank to prevent dangerous, accidental releases during the recycling process. Often, however, selling or donating old air compressors depends on their level of functionality.

Can an air compressor be placed in a trash can?

No, an air compressor is too big to fit in the trash can. It typically consists of a motor, a tank, a pump, and some cords. To dispose of it, you'll need to separate every part possible for recycling.

Should you sell or donate old air compressors?

Before recycling an air compressor, release all pressure from the tank to prevent dangerous, accidental releases. Often, selling or donating old air compressors depends on their level of functionality. There are some more things to know about each of those options than just the basics.
